FRIDAY—At 8 a. m. the temperature was 60 deg.; at 8 p. m. it was 55 deg. Wind, S. by E., velocity, 4 miles; S. by E., velocity, 2 miles. At midday the temperature was 65 deg.; at 8 p. m. it was 55 deg.

SATURDAY—At 8 a. m. the temperature was 60 deg.; at 8 p. m. it was 55 deg. Wind, S. by E., velocity, 4 miles; S. by E., velocity, 2 miles. At midday the temperature was 65 deg.; at 8 p. m. it was 55 deg.

SUNDAY—At 8 a. m. the temperature was 60 deg.; at 8 p. m. it was 55 deg. Wind, S. by E., velocity, 4 miles; S. by E., velocity, 2 miles. At midday the temperature was 65 deg.; at 8 p. m. it was 55 deg.

MONDAY—At 8 a. m. the temperature was 60 deg.; at 8 p. m. it was 55 deg. Wind, S. by E., velocity, 4 miles; S. by E., velocity, 2 miles. At midday the temperature was 65 deg.; at 8 p. m. it was 55 deg.

TUESDAY—At 8 a. m. the temperature was 60 deg.; at 8 p. m. it was 55 deg. Wind, S. by E., velocity, 4 miles; S. by E., velocity, 2 miles. At midday the temperature was 65 deg.; at 8 p. m. it was 55 deg.

WEDNESDAY—At 8 a. m. the temperature was 60 deg.; at 8 p. m. it was 55 deg. Wind, S. by E., velocity, 4 miles; S. by E., velocity, 2 miles. At midday the temperature was 65 deg.; at 8 p. m. it was 55 deg.

THURSDAY—At 8 a. m. the temperature was 60 deg.; at 8 p. m. it was 55 deg. Wind, S. by E., velocity, 4 miles; S. by E., velocity, 2 miles. At midday the temperature was 65 deg.; at 8 p. m. it was 55 deg.

FRIDAY—At 8 a. m. the temperature was 60 deg.; at 8 p. m. it was 55 deg. Wind, S. by E., velocity, 4 miles; S. by E., velocity, 2 miles. At midday the temperature was 65 deg.; at 8 p. m. it was 55 deg.

SATURDAY—At 8 a. m. the temperature was 60 deg.; at 8 p. m. it was 55 deg. Wind, S. by E., velocity, 4 miles; S. by E., velocity, 2 miles. At midday the temperature was 65 deg.; at 8 p. m. it was 55 deg.

SUNDAY—At 8 a. m. the temperature was 60 deg.; at 8 p. m. it was 55 deg. Wind, S. by E., velocity, 4 miles; S. by E., velocity, 2 miles. At midday the temperature was 65 deg.; at 8 p. m. it was 55 deg.

MONDAY—At 8 a. m. the temperature was 60 deg.; at 8 p. m. it was 55 deg. Wind, S. by E., velocity, 4 miles; S. by E., velocity, 2 miles. At midday the temperature was 65 deg.; at 8 p. m. it was 55 deg.

CZAR AT PETERHOF

Intends Moving to Winter Palace.

Police Verify Passports of All Persons Around Tsarskoe-Selo.

Bombs in Large Quantity Are Captured in Heart of St. Petersburg.

Favors to Jews Are Expected Fisheries Treaty With Japan Progresses.

(BY THE ASSOCIATED PRESS—P.M.)

ST. PETERSBURG, Oct. 4.—[Exclusive Dispatch.] The imperial yacht Standart, accompanied by a naval escort, returned this afternoon. The czar landed and went to Peterhof. His brother, Grand Duke Michael, went to Gatchina.

ST. PETERSBURG, Oct. 4.—The Emperor, who is at Peterhof, will move almost immediately to his winter residence at Tsarskoe-Selo.

Warned by the immunity in which Zensale Knopiansky resided at Peterhof for months prior to her assassination of Gen. Min on August 26, the police are verifying the passports of all doubtful persons in the vicinity of Tsarskoe-Selo and a most strict supervision of all strangers arriving there has been instituted.

CAPTURE BOMBS IN CAPITAL.
The capture of bombs yesterday is regarded as of the utmost importance as it revealed and apparently frustrated the designs of the revolutionists to convert St. Petersburg into a second Warsaw. Enough explosives were seized to arm a whole regiment.

A band of Polish experts came here recently for the purpose of instructing the local revolutionists in the best methods of using this material.

ATTACK INOFFENSIVE M.A.I.
The throwing of a bomb today at Gen. Starukewich, Governor of Simbirsk, is described here as the act of irresponsible local revolutionists anxious to strike a blow at authority in general and not the result of a design in the terrorist organization.

Starukewich, who has the reputation, even in radical circles, of a fairly mild and unobjectionable bureaucrat. He never rendered himself odious by political repression.

EXTENDS FAVORS TO JEWS.
According to the Bourne Gazette the contemplated measures for the relief of the Jews included enlargement of the Pale, the annulment of the percentage of restriction in the admission of Jews to schools and universities, the granting of permission to unwilling converts to orthodox and their descendants to return to Judaism and the granting of the right to purchase lands to the Jews of Poland. This will be unpopular in Poland.

REACTIONAIRES OBJECT.
The reactionary leagues are hounding Premier Stolypin and the Emperor with petitions against the unrestricted opening of schools to Jews, on the ground that this is a matter in which the entire nation should have a voice.

The Novo Vremya records the shipment of a large quantity of gold to meet the interest on Russia's short time obligations to the Mendelssohns of Berlin. This presumably is the bullion which just arrived here by sea from London. The reason for this round about method of transmission is not explained.

NEGOTIATES WITH JAPAN.
The negotiations in the matter of the fisheries treaty with Japan are progressing slowly. Both sides have submitted propositions and counter-propositions, but the conference have not yet begun. Russia is considering a protest to Japan regarding the killing of Russian guards by Japanese poachers on Kamchatka, but she is awaiting the result of a fuller investigation into this occurrence. It is interesting to note that the first news of this incident arrived here by way of the United States.

TRIES MARRIAGE AGAIN.
After two unsuccessful attempts Rich Man Thinks Third Venture Lucky.

(BY DIRECT WIRE TO THE TIMES.)
BOSTON (Mass.) Oct. 4.—[Exclusive Dispatch.] After various strenuous matrimonial ventures, Joseph Lathrop Blinn of Springfield, Mass., aged 49, one of the heirs of William Marsh Rice, the Texas millionaire murdered in New York by his valet, was married today to Mrs. Bertha Arbutus Simonds of Stockbridge, Mass., aged 38.

This is Blinn's third matrimonial trip. His second wife was the niece of his first wife. She eloped with a drummer. Blinn got \$100,000 from the Marsh estate.

EXAMINE MEXICAN MINE.

Boston Capitalists Seek to Buy Sonora Bonanza from its Michigan Owners.

(BY DIRECT WIRE TO THE TIMES.)
BOSTON (Mass.) Oct. 4.—[Exclusive Dispatch.] It is learned that Guggenheim is making an examination of the Sonora Bonanza Mining Company property near Imuris, Mex., with a view to purchase. President Smith has left the matter entirely in the hands of Superintendent Parker, who meets Guggenheim's representative at Benson, Ariz., tomorrow.

The company has 1,000,000 shares of stock, of which one-quarter is in the treasury. The company is controlled in Houston, Mich., and a minority of the stock is held mostly by officials of the Greene Consolidated.

"ALLOWANCE" NOT A REBATE.
UNION PACIFIC TRAFFIC MANAGER DEFENDS ROAD.

Testifies Before Interstate Commerce Commission Regarding One-and-a-Quarter-Cent Reduction Per Hundredweight on Wheat Shipments—Friendship for Peavey.

(BY DIRECT WIRE TO THE TIMES.)
CHICAGO, Oct. 4.—[Exclusive Dispatch.] When called before the Interstate Commerce Commission today T. A. Monroe, traffic manager of the Union Pacific, unequivocally denied that the 1 1/4 cents allowance, per hundredweight, on wheat, granted to the Peavey Elevator interests by the railroad for the quick relief of Union Pacific equipment, is to be considered a rebate or device, or that Peavey built the elevator in question at Omaha only on the inducement of the railroad, which offered the 1 1/4 cents allowance.

Attorney Severance, on cross-examination, attempted to get an admission from Monroe that he knew that at present the only charges for transferring grain in Chicago is one-fourth of a cent per bushel; witness said he did not believe that is true.

Cross-examination by Attorney Kelley, counsel for the Burlington at Omaha, developed that the witness, and the founder of the Peavey Elevator Companies are intimate friends.

"Did not the Union Pacific insist upon Mr. Peavey relinquishing his interest in the Council Bluffs Elevator Company to the Bartlett, Frasier & Carrington Company of Chicago?" asked Attorney Kelley.

"I don't remember."

"Didn't Manager Jewett transfer the stock in Bartlett, Frasier & Carrington to the present Peavey?"

"Were not allowances made long before this contract with Peavey?"

"Yes."

"Were not rebates paid, and isn't this contract a mere device to continue that rebate system of mine immemorial?"

"No, it is not."

"It smells just as sweet under the new name, does it not?" answered the witness, laughing.

It developed that under a circular issued by the Union Pacific, offering to pay the allowance to all elevator men, issued in July, no allowance had been paid any one except to the Peavey interests. Mr. Monroe endeavored to justify this by the declaration that, owing to certain technical questions over the construction of the language in the circular, payments had been held up until the law department of the railroad submits an opinion.

STARTLES UNIVERSITY.
Lecturer Says Every Christian Is an Anarchist and Students Flee From Him.

(BY DIRECT WIRE TO THE TIMES.)
BOSTON (Mass.) Oct. 4.—[Exclusive Dispatch.] More heresy is said to be developing at Boston University. Assistant Dean Charles W. Rishel, today in his lecture to the freshmen class on the "History of the Christian Church" made some startling assertions which made the students hop out of their chairs and quit a number left the lecture room when the full significance of his remarks dawned upon them.

"Every Christian is an anarchist and every Anarchist is a Christian," he said later, explaining this by adding that if everybody was a Christian there would be no need of government of any kind."

One freshman packed his trunk and departed, declaring his parents would never consent to his imbibing such teachings.

WESSON'S NEPHEW CONTESTS.
Cut Off With Bequest of Fifty Dollars He Wants More of Late "Revolver King's" Coin.

(BY DIRECT WIRE TO THE TIMES.)
SPRINGFIELD (Mass.) Oct. 4.—[Exclusive Dispatch.] Frederick H. Wesson of Worcester, who was cut off with a bequest of \$50 by his uncle, the late Daniel H. Wesson, the "Revolver King," has begun a fight to have the will broken.

Wesson left an estate valued at over \$200,000. The grand children received \$200,000 each, and the nephews and nieces \$5000 each, except Frederick Wesson.

The appellant claims the millionaire was of unsound mind when the codicil cutting him off was added to the will and that he was unduly influenced by H. H. Leonard of Northboro. He asks that the Supreme Court frame questions at issue and that these be heard by the Superior Court Jury.

NANCY THEATER BURNS.
NANCY (France). Oct. 4.—The theater of Nancy was burned down this evening, shortly before the arrival of the audience for the performance. There was no casualties. The damage amounts to \$100,000.

FIRE DESTROYS ROUNDHOUSE.
BISMARCK (N. D.) Oct. 4.—Fire last night destroyed the Roundhouse and machine shops here; loss, \$100,000.

WON'T SEE HIS WIFE.

Mrs. Platt Besieges Senator.

Aged Nestor Goes Direct to His Office at His Usual Hour.

Spouse Makes an Ineffectual Effort to Arrange a Meeting There.

Does Not Go to Senator's Hotel—Changes Mind About Rooms.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK, Oct. 4.—[Exclusive Dispatch.] Mrs. Thomas G. Platt, true to her word, left Niagara, early this morning, and came to this city, where she made a determined onslaught by wire in an effort to gain the "citadel" on Broadway where the Senator is entrenched.

Platt declined to talk with her over the telephone and she relieved her feelings by conversing for a moment with one of his secretaries. She had heard that he intended to leave the city for a few days in search of some sunnier and happier clime.

She arose while it was yet dark, and by 8 o'clock was on her way from Highland Mills. Early as was the hour, many of the feminine population of the little village were at the doors and windows to see her.

DAUGHTER AND HOUSEKEEPER.
Mrs. J. L. Carmody, and by her housekeeper. They were in light traveling order, and seemed bent on only an excursion to the metropolis.

PLATT WAS ASTIR EARLY.
Senator Platt was astir as early as was his wife, for it had been his intention to go somewhere at 8 o'clock. His trunk was packed, and he had provided himself with a consignment of ornate haberdashery.

WENT TO HIS OFFICE.
The Senator, from his window high in the Hotel Gotham, took a look at the threatening sky, and countermanded the order. He went instead to his office at 9 o'clock, his usual time. He was soon immersed in the affairs of the express business.

MRS. PLATT CALLS.
Mrs. Platt, after her arrival at the Twenty-third-street ferry, went to the Fifth Avenue Hotel, where she merely passed through one corridor and then made her way to a department store across the street. She called at the Broadway office, after that, and made her ineffectual effort to arrange a meeting with the Senator.

The belief was entertained throughout the offices of the United States Express Company that she was likely at any time to "storm" the place. Three negro porters were on the watch, and a strong young man was standing at the front door, waiting at any time to run and give the alarm.

Even the grave-faced youths who stand in the outer room of the company's president's office and count money orders were much perturbed.

AT WARDORF-ASTORIA.
Mrs. Platt, however, did not arrive there. She and her daughter went, instead, to the Wardorf-Astoria Hotel, where they had luncheon.

Senator Platt left his Broadway office at 2 o'clock. It had been stated that Mrs. Platt, on her arrival, proceeded to the Hotel Gotham, where she would insist upon nursing her husband. She did not go near the hotel.

As far as could be learned, Platt had given no instructions to the reception which should be accorded his wife, and consequently the employees were preparing to usher her to his rooms should she appear.

CHANGES HER MIND.
Mrs. Platt changed her mind with regard to taking the apartments engaged for her at the Gotham. She was seen in the evening near the Fifth Avenue Hotel, but it was denied that she was domiciled there. It was also said that she had returned by a round about way to Toga Lodge, but no word could be obtained from the country house.

The Senator, whose son Frank sustained him in his resolution not to see his wife, is still at the Gotham.

PLANS GREAT BANK OF CENTRAL ISSUE.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Oct. 4.—[Exclusive Dispatch.] Advocating a great central bank of issue, with a capital of at least \$50,000,000, under government control and making a special plea for an emergency bank note circulation, the Currency Reform Committee of the Chamber of Commerce today announced the results of its investigation of many months.

The document presented to the Chamber of Commerce today is said to be the most notable presentment in furtherance of the currency reform movement made in many years.

POINTS OF THE PLAN.
Here are the remedies suggested by the special committee, as they are summarized in the report:

"Let there be created a central bank of issue, similar to the Bank of Germany or the Bank of France, such bank to deal exclusively with banks, its stock to be owned in part by banking institutions and in part by the government, but in its management representatives of the government shall be supreme. This central bank shall issue currency, re-discount for other banks, hold public money, and act as agent of the government in redeeming its paper money and making its disbursements."

"Or, let any national bank whose bond-secured circulation equals 50 per cent of its capital have authority to issue additional notes, equal in amount to 35 per cent of its capital."

"That the law restricting the retirement of national bank notes to \$3,000 a month by depositors of lawful money be repealed."

FUTURE BOND ISSUES.
"That future issues of the United States bonds be not made available as a basis for the issue of national bank notes."

BOOK SELLS FOR \$10,000.

Volume of "Passionate Pilgrim," With But One Duplicate, Brings Big Price.

BY THE ASSOCIATED PRESS—P.M.

LONDON, Oct. 4.—A copy of the third edition of Shakespeare's "Passionate Pilgrim," of which the only other copy extant is in the Bodleian Library, has just been sold at private sale to an American buyer for \$10,000.

BUYS "BOSTON HERALD."
Stock Changes Hands and New Owner Becomes Editor and General Manager.

(BY DIRECT WIRE TO THE TIMES.)
BOSTON, Oct. 4.—[Exclusive Dispatch.] At a meeting of the directors of the Boston Herald today an important change took place. J. H. Holmes retired as editor and sold his stock to W. E. Haskell, who now controls 1300 shares. Holmes's holdings amounted to 684 shares and Haskell paid a larger price per share than ever before was paid for Herald stock.

He will be editor and publisher. W. N. Merrill, now on the staff, will be assistant editor. Haskell's father, E. B. Haskell, goes upon the directorate with E. K. Hall, attorney for the Herald.

Harty H. Holmes retired also, the balance of 700 shares is owned by F. E. Whitting and the Andrews estate.

MARRIES HIS STENOGRAPHER.
Veteran Millionaire of Massachusetts Weds His Beautiful Young Woman Assistant.

(BROOKLINE, Mass.) Oct. 4.—[Exclusive Dispatch.] Samuel Williams, millionaire woolen manufacturer and millowner, was quietly married today to his stenographer, Miss Marion Seavern, daughter of Mrs. Emily Seavern of this town.

The ceremony was performed by Rev. Avery A. Shaw.

Williams is sixty-five years old, and his bride thirty-three.

She is a beautiful, highly-educated girl, a member of one of Brookline's old and honored families and was an intimate friend of one of Williams's daughters.

DISCHARGES MANAGER.
Mutual Life Rescues Subordinate's Effort to Elect Trustees on Policy Holders' Ticket.

(BY DIRECT WIRE TO THE TIMES.)
NEW YORK, Oct. 4.—[Exclusive Dispatch.] Another district manager of the Mutual Life Insurance Company, Oct. Blaco Hindman of Louisville, Ky., was discharged today from the company's employ for taking what the Mutual officers consider was too active a part in the campaign to elect trustees on the policy holders' ticket.

GATES A JAR TO FAITHFUL

Majority Situation Poser for Party Whips.

Dr. Lindley's Candidacy Adds Spice to Mixture.

Hard Nut to Be Cracked by the Republicans.

Political tempers flared yesterday over the latest development in the municipal campaign—the selection of Lee C. Gates as the majority candidate of the Non-partisan City Central Committee, and the decision of Dr. Walter Lindley to seek the nomination for that office at the hands of the Republican City Convention.

The situation afforded meat for a good deal of lively gossip at the clubs and gave rise to much speculation as to the effect the rival candidates would have upon the Republican organization, which is said to be strongly committed to the cause of Councilman George A. Smith of the Fifth Ward.

Although petitioned by a large number of prominent citizens to be a candidate for Mayor before the voters at the city election on December 4, Dr. Lindley made his position clear in his letter of acceptance, wherein he stated that he will be a candidate for nomination by the Republican City Convention.

Thus committed, it is plain that Dr. Lindley has no intention of stepping over the party line to secure the nomination, and he, and Mr. Smith, therefore, are two candidates who will place their rival claims before the delegates to the city convention.

WANTS INDORSEMENT. Mr. Gates, too, will seek the Republican convention's indorsement of his candidacy. He said so yesterday. "I certainly should be glad to have the convention's indorsement," said Mr. Gates, "first, because I am a Republican, and second, because it would assure my election."

Friends of Mr. Gates will present his name to the convention, and appearances now are that there will be spirited contest in that body in the selection of his candidate.

There may be such a change in the Republican organization programme between now and the date of the city convention, November 1, as to eliminate Mr. Smith from the running. Such a change might be brought about by the development of peculiar strength on the part of Dr. Lindley or Mr. Gates.

If it should prove, for instance, that Dr. Lindley is party following is greater than that of Mr. Smith, it not beyond the possibilities that Walter Parker would sacrifice the member of that large family that is crowded with attempting to conceal under the name of Smith.

Then, too, it is well within the bounds of possibility that Mr. Gates will develop even more Republican strength than even Lindley or Smith, wherefore Parker might attempt to place a ticket in the field rather than indorse the candidacy of Mr. Gates.

There were good words yesterday for Lindley and Gates alike. Both were in receipt of many congratulations upon their respective decisions.

The relations between Dr. Lindley and Mr. Gates are of the most friendly nature. Each says, however, that they understood Mr. Gates would not be the candidate of the non-partisans.

STILL TALK SMITH. Strictly confidential members of the Republican party continued to insist yesterday that Councilman Smith was programmed for the party nomination. Smith certainly is exerting every effort to win the honor. Should he be named, there would be an interesting fight at the polls, especially if the Democrats place a ticket in the field rather than indorse the candidacy of Mr. Gates.

A. C. Harper, the Democrat most frequently mentioned for the place, and O. E. Farish of the real estate firm of Mines & Farish has entered the field and will campaign with Mr. Gates for the nomination. Mr. Farish served one term as Councilman from the Third Ward.

Present Democrats are working now to secure the indorsement of Mr. Gates.

If the Democrats and Republicans alike should approve him in the election, would be merely a matter of form.

If the Republicans alone should indorse him, that party and the independent vote undoubtedly would elect him.

Should the Democratic convention approve Gates and the Republican convention name Smith, the friends of Gates say he would win easily.

With Dr. Lindley as the Republican nominee the Gates workers would have to labor more assiduously for their candidate.

But for a really fierce contest, the prospect of three candidates in the field—Republican, Democratic and Non-partisan—would delight the most blasé follower of municipal events.

No one is bold enough to hazard a guess as to the outcome. It might be something worse than the election of any one of the three candidates, for there lurk on the outside wolves who would welcome just such a tangled situation and who might rush in and grapple the office.

NOTES POLITICAL CAMPAIGN MISCELLANY.

Ralph Sepulveda, Amador Marx, Federico Alva and W. S. Kingsbury will speak at the first public meeting of the newly-formed Latin-American Republican League, to be held tomorrow evening at 7:30 o'clock at the Plaza. Frank Dominguez, president of the league, will preside and there will be music by a band. A meeting will be conducted by the league next Thursday evening at San Gabriel and another at Wilmington on Friday night, to be followed by a dance. A party will be given at the home of the Second Ward will enliven these meetings.

Republican candidates for city offices are gathering daily at City Central Committee, No. 1184 South Spring street, where Secretary J. H. Wright or his assistant, H. E. Bennett, is constantly on hand to lend aid to candidates and workers in preparation for the campaign.

Councilman E. L. Blanchard was indorsed for re-nomination by Republicans of the Ninth Ward who met at A.O.U.W. Hall, No. 214 East First street. Prior to the public meeting, the Ninth Ward Republicans were re-organized with Myers T. White as president; C. E. Davidson, secretary, and George M. Lyons, treasurer.

Los Angeles Socialists will hold their city caucus at 6 o'clock Sunday evening for the purpose of selecting candidates for municipal office and to agree upon delegates to be elected at the primaries of the 23d inst. They claim

to have excellent organization in every city precinct.

MORAN RULES CONVENTION.

NOMINATED BY BAY STATE DEMOCRATS FOR GOVERNOR.

Turbulent Struggle Over Indorsement of Williamstown Declares Massachusetts Gathering Has Nothing to Do With New York Politics.

(BY THE ASSOCIATED PRESS—P.M.) BOSTON, Oct. 4.—A new era for the Massachusetts Democracy was inaugurated today by the State convention of that party when, after a turbulent struggle over indorsing W. J. Bryan and W. R. Hearst, John E. Moran, District Attorney of Suffolk county, who was already the nominee for the

governorship, was elected to the post of president of the convention.

The situation afforded meat for a good deal of lively gossip at the clubs and gave rise to much speculation as to the effect the rival candidates would have upon the Republican organization, which is said to be strongly committed to the cause of Councilman George A. Smith of the Fifth Ward.

Although petitioned by a large number of prominent citizens to be a candidate for Mayor before the voters at the city election on December 4, Dr. Lindley made his position clear in his letter of acceptance, wherein he stated that he will be a candidate for nomination by the Republican City Convention.

Thus committed, it is plain that Dr. Lindley has no intention of stepping over the party line to secure the nomination, and he, and Mr. Smith, therefore, are two candidates who will place their rival claims before the delegates to the city convention.

WANTS INDORSEMENT. Mr. Gates, too, will seek the Republican convention's indorsement of his candidacy. He said so yesterday. "I certainly should be glad to have the convention's indorsement," said Mr. Gates, "first, because I am a Republican, and second, because it would assure my election."

Friends of Mr. Gates will present his name to the convention, and appearances now are that there will be spirited contest in that body in the selection of his candidate.

There may be such a change in the Republican organization programme between now and the date of the city convention, November 1, as to eliminate Mr. Smith from the running. Such a change might be brought about by the development of peculiar strength on the part of Dr. Lindley or Mr. Gates.

If it should prove, for instance, that Dr. Lindley is party following is greater than that of Mr. Smith, it not beyond the possibilities that Walter Parker would sacrifice the member of that large family that is crowded with attempting to conceal under the name of Smith.

Then, too, it is well within the bounds of possibility that Mr. Gates will develop even more Republican strength than even Lindley or Smith, wherefore Parker might attempt to place a ticket in the field rather than indorse the candidacy of Mr. Gates.

There were good words yesterday for Lindley and Gates alike. Both were in receipt of many congratulations upon their respective decisions.

The relations between Dr. Lindley and Mr. Gates are of the most friendly nature. Each says, however, that they understood Mr. Gates would not be the candidate of the non-partisans.

STILL TALK SMITH. Strictly confidential members of the Republican party continued to insist yesterday that Councilman Smith was programmed for the party nomination. Smith certainly is exerting every effort to win the honor. Should he be named, there would be an interesting fight at the polls, especially if the Democrats place a ticket in the field rather than indorse the candidacy of Mr. Gates.

A. C. Harper, the Democrat most frequently mentioned for the place, and O. E. Farish of the real estate firm of Mines & Farish has entered the field and will campaign with Mr. Gates for the nomination. Mr. Farish served one term as Councilman from the Third Ward.

Present Democrats are working now to secure the indorsement of Mr. Gates.

If the Democrats and Republicans alike should approve him in the election, would be merely a matter of form.

If the Republicans alone should indorse him, that party and the independent vote undoubtedly would elect him.

Should the Democratic convention approve Gates and the Republican convention name Smith, the friends of Gates say he would win easily.

With Dr. Lindley as the Republican nominee the Gates workers would have to labor more assiduously for their candidate.

But for a really fierce contest, the prospect of three candidates in the field—Republican, Democratic and Non-partisan—would delight the most blasé follower of municipal events.

No one is bold enough to hazard a guess as to the outcome. It might be something worse than the election of any one of the three candidates, for there lurk on the outside wolves who would welcome just such a tangled situation and who might rush in and grapple the office.

NOTES POLITICAL CAMPAIGN MISCELLANY.

Ralph Sepulveda, Amador Marx, Federico Alva and W. S. Kingsbury will speak at the first public meeting of the newly-formed Latin-American Republican League, to be held tomorrow evening at 7:30 o'clock at the Plaza. Frank Dominguez, president of the league, will preside and there will be music by a band. A meeting will be conducted by the league next Thursday evening at San Gabriel and another at Wilmington on Friday night, to be followed by a dance. A party will be given at the home of the Second Ward will enliven these meetings.

Republican candidates for city offices are gathering daily at City Central Committee, No. 1184 South Spring street, where Secretary J. H. Wright or his assistant, H. E. Bennett, is constantly on hand to lend aid to candidates and workers in preparation for the campaign.

Councilman E. L. Blanchard was indorsed for re-nomination by Republicans of the Ninth Ward who met at A.O.U.W. Hall, No. 214 East First street. Prior to the public meeting, the Ninth Ward Republicans were re-organized with Myers T. White as president; C. E. Davidson, secretary, and George M. Lyons, treasurer.

Los Angeles Socialists will hold their city caucus at 6 o'clock Sunday evening for the purpose of selecting candidates for municipal office and to agree upon delegates to be elected at the primaries of the 23d inst. They claim

to have excellent organization in every city precinct.

POLITICAL BRIEFS.
Gillett's Resignation Filed.
SACRAMENTO, Oct. 4.—The resignation of Congressman J. N. Gillett was officially received by the clerk of the House at 10 o'clock this morning. The election proclamation will be issued at once.

Promises Box-Car Whirlwind.
NEW YORK, Oct. 4.—The State and Municipal Ownership party held a convention last night and nominated a full State ticket, headed by Joseph W. Cady of New York City for Governor.

Texas Populists Overlooked.
AUSTIN (Tex.), Oct. 3.—The Supreme Court today decided that the organized Populists have a right to a place on the official ballot for the State officers in the November election.

and was eligible to practice law before he was forced, but who had to wait seven years before he could be admitted to the bar; who went up by leaps and bounds until he became delivery boy at the corner grocery, and who now, fellow-citizens, stands before you as a candidate for the high office of

Such as this, and much of it, is swamping the corps of editors engaged by the time it comes up for final approval, and the public will be denied one of the richest literary and biographical treats of the century. In the interest of party success the blue pencils are working night and day, cutting out the flubdub that would kill the chances of any candidate were it admitted to appear on the ballot.

THE WATCHMAN.
Capt. John Birmingham, of San Francisco, supervising inspector of hulls and boilers, has decided that Capt. Larsen and Fred Farrell, master and chief mate, respectively, of the schooner Mindoro, were guilty of poor seamanship in the collision at sea between that schooner and the bark George Curtis on April 17, in which the mate of the bark was killed and considerable damage done to both vessels.

A Reasonable Plea For the Stomach.
If Your Stomach is Lacking in Digestive Power, Why Not Help the Stomach Do Its Work—Especially When It Costs Nothing to Try?

Not with drugs, but with a reinforcement of digestive agents, such as are naturally at work in the stomach? Scientific analysis shows that digestion requires pepsin, nitrogenous ferments and the secretion of hydrochloric acid. When your food fails to digest, it is proof positive that some of these agents are lacking in your digestive apparatus.

Stuart's Dyspepsia Tablets contain nothing but these natural elements necessary to digestion, and are placed at work in the weak stomach and small intestine, supply what these organs need. They stimulate the gastric glands and gradually bring the digestive organs back to their normal condition.

Stuart's Dyspepsia Tablets have been subjected to critical chemical tests at home and abroad and are found to contain nothing but natural ingredients. "Difendo," London. Telephone No. 11029 Central, 20 Colburn St., Fenchurch St., E. C.

I have analyzed most carefully a box of Stuart's Dyspepsia Tablets (which I bought myself at a city chemist's shop for the purpose), manufactured by the F. A. Stuart Co., Temple Chambers, London, E. C., and have to report that I cannot find any trace of vegetable or mineral poisons. Knowing the ingredients of the tablets, I am of opinion that they are admirably adapted for the purpose for which they are intended.

(Signed) JOHN R. BROOKS, F. R. C. S. G. B.

There is no secret in the preparation of Stuart's Dyspepsia Tablets. Their composition is commonly known among physicians, as is shown by the recommendations of 40,000 licensed physicians in the United States and Canada. They are the most popular of all remedies for indigestion, dyspepsia, water brash, insomnia, loss of appetite, melancholia, constipation, dysentery and kindred diseases.

Stuart's Dyspepsia Tablets are at once a safe and a powerful remedy, one box of these tablets being strong enough (by test) to digest 3000 grains of steak, eggs and other foods. Stuart's Dyspepsia Tablets will digest your food for you when your stomach can't.

Ask your druggist for a 50¢ test package or send us direct for a free trial sample package and you will be surprised at the result. F. A. Stuart Co., 44 Stuart Bldg., Marshall, Mich.

GO SLOW ON A COLLEGE.

Los Angeles Baptists Do Not Take To It.

Congregationalists Will Meet Next Week.

Nazarenes Talk of Their Bible College.

The report of the special committee of the Nazarene church, appointed at a former meeting, was read yesterday at the Los Angeles Baptist association, in session at Pasadena, upon the subject of the proposed union between the Baptists, Congregationalists and Disciples in the management of Pomona College.

The committee made a recommendation, but threw its report into the center for general discussion, with the result that the proposition to unite was rejected, so far as this association is concerned, though the matter will be considered at the meeting of the Southern California convention, to be held in this city next month.

The report, which was read by Rev. J. A. Cressy, discussed the matter from the standpoint of the value of the Baptist college property in this city, and how leased to the Los Angeles Baptist association. This property is worth possibly \$100,000, but is burdened with a heavy mortgage, the amount of which was not stated. This mortgage has over two years yet to run, and as the property is rapidly depreciating in value, it was thought advisable to hold on for a time longer, in the hope of becoming able to support an institution of their own.

The proposition for joint management, made by Pomona College, was explained and there were many expressions of appreciation of the general offer. Prof. Melville Dooler declared that "a fairer, more generous proposition was never made, though the advisability of accepting it was a matter of individual opinion." He was non-committal.

T. A. Tompkins of Pasadena favored the union, saying that he would rather have a first-rate union college than a third-rate Baptist college.

Rev. W. A. Gregory of Irvine thought it would be improper to divert money from the purpose intended in its completion and besides that, he wouldn't see to his boy to a "conglomerate."

U. F. Ward of Pasadena said a small college could be a first-rate college and that the best method of development in denominational colleges.

Rev. U. Gregory said the time would come when a creditable Baptist college could be instituted near Los Angeles.

Rev. G. A. Cleveland expressed precisely the same opinion.

Rev. J. B. Thomas of Riverside thought it would be impossible to conduct a new institution without discord in the family, and that a conservative denominational institution gives a basis of great value.

Rev. A. P. Graves said: "Southern Baptists are in itself, and the members of the whole country would be disgraced at the confession of inferiority on the part of the people who maintain a denominational institution. The question is not, 'How did it get into the hole?' but 'How can we get it out?'"

Rev. A. Northrup of the First Baptist church, this city, thought the best college plan was perfectly feasible.

Rev. C. C. Pierce of Memorial Church said that it was the case a church should be appointed at once to an endowment.

Rev. Griffith of Azusa advised caution, fearing that hasty action would lead to disaster.

Rev. L. A. Gould of Los Angeles thought there should be no hurry in making a proposition simply because it had been made, and that the matter was not far distant when the Baptists of Southern California will be equal to the demand that might be made upon them.

At the woman's missionary meeting in the afternoon Mrs. Davies and Miss Bakeman, two of the missionaries about to go to China, were introduced and made interesting talks.

Last night Rev. A. H. Smith of Pasadena spoke on "The Model Church." Rev. A. S. Phelps on "What Shall We Do About It?" and Rev. A. M. Petty on "Forward, March."

The meetings were all delightful and profitable and the entertainment by the people of Pasadena was most pleasing. The next meeting will be held in the East Los Angeles church, and the annual service will be conducted by Rev. H. Russell Greaves of Monrovia.

CONGREGATIONALISTS.
GENERAL ASSOCIATION MEET.
It is possible that at the meeting of the General Congregational Association at Claremont next week, something of interest may develop on the question of the proposed union of management of Pomona College.

The sessions will be held at a young people's meeting on Monday evening, and will close at 2 o'clock on Thursday afternoon. On Tuesday afternoon, Rev. Dana W. Barrett, of the Bethlehem institutions will give a social study on "The Church of the Present Day." On Wednesday afternoon, George Davidson, a San Diego merchant, will give "A Layman's View of the Situation."

NAZARENE ASSEMBLY.
TALKS ON EDUCATION.
At the session of the Nazarene General Assembly yesterday afternoon, the matter was filled with thirty or forty students of the Pacific Bible college at Hollywood, and the meeting was a most enthusiastic one, from a spiritual point of view.

Rev. H. D. Brown of Seattle conducted the services and by his side sat the venerable Dr. P. F. Brown, founder of the Church of the Nazarene. There was plenty of music, and as the larger part of the audience kept time with hands or feet, or both, there was considerable excitement, and "glories" were sung with enthusiasm. The students of the college, real and led the students in a testimony meeting, in which the young people proved themselves self-possessed and of a clear understanding.

FIVE DIE WHEN TRAINS CRASH.

Military Special Collides With Regular Passenger.

Death List May Swell from Score of Injured.

Bridegroom on Honeymoon Loses His Young Wife.

(BY THE ASSOCIATED PRESS.—P.M.)
LANSE, BURG (V. I.) Oct. 4.—Five passengers were killed outright and a score injured in a rear-end collision between a regular passenger train and a military special on the Boston and Maine Railroad, directly in front of the Lansingburg station, about 5 o'clock today.

The dead are:
H. L. BLOCK, Peoria, Ill.
MRS. WALLACE E. SHAW, Bath, Maine.
MRS. STEVENS, Boston.
MRS. J. W. DACEY, Arlington, Mass.
MRS. H. S. POOLE, Concord, N. H.
Among the most seriously injured were:
W. VAN FOSSETT and wife, Boston; buried.
FRANK BELCHER, Medford, Mass.; both legs fractured.

GEORGE STEVENS, Winchester, Mass.; compound fracture of ankle and arm.
MRS. F. L. BLOCK, Peoria, Ill.; believed spine fractured and leg crushed.

MISS MASON, Bath, Maine; leg crushed.
The collision took place on a heavy grade and a sharp curve. The passenger train was about one hour late when it reached Lansingburg station, and was waiting there for a chance to get into Troy depot.

Without apparent warning the special came thundering along with eighteen cars and crashed into the passenger train, smashing the last two cars, which were Pullmans, like eggshells.

The special was drawing four troops of the Fourteenth United States Cavalry from Fort Ethan Allen to Newport News, where they are to embark for Cuba. The soldiers quickly got to work to rescue the injured.

Many of the passengers on the regular had left the train when it came to a standstill and were pacing up and down the track when the crash came. One man's grief was pitiable. His name was J. W. Dacey, and he ran up and down the track crying for his wife, in a few minutes her lifeless form was identified. They had been married last night at Arlington, Mass., and were on their honeymoon, having planned an extensive trip.

Capt. Dziankowsky who was shot and killed in a Moscow street, was assassinated in pursuance of a sentence of the revolutionists. He was commander of a company of the Petrova regiment, which, on August 16, killed two political agitators during an outbreak among the political offenders confined in the central prison of Moscow.

AUTUMNAL CATARRH

Diseases Prevalent Now. Hyomei Will Cure It Quickly.
A great many people suffer more with catarrh during the fall months than at any other season of the year, as changes in weather seem to have a bad effect upon the disease.

At the first warning of catarrh, one should begin the use of Hyomei. A few days' treatment will often prevent a serious attack of this distressing and annoying disease.

There is no stomach dosing with Hyomei. It cures catarrh by the simple and natural method of breathing medicated air into the nose, throat and lungs, "in this way killing the germs of catarrhal poison, healing and soothing the irritated mucous membrane and entering the blood with the oxygen, thus driving all catarrh germs from the system.

If you have any of the ordinary catarrh symptoms, such as offensive breath, burning pains in the throat, coughing, raising of mucus, difficulty to breathe, sneezing, huskiness, discharge from the nose, droppings in the throat, coughing spasms, etc., begin the use of Hyomei at once.

A complete Hyomei outfit costs but \$1.00, extra bottles 50c, and your money will be refunded unless it cures.

Write us today for symptom blank and one of the best catarrh specialists will give you without charge personal advice and whatever prescription you may need. All druggists are authorized to refund the purchase price on Hyomei, should it fail to give satisfaction, but if your druggist will not refund, return the empty package and inhaler to us, and we will comply with guarantee. The R. T. Booth Co., Buffalo, N. Y.

MANIAC DRIVES CAR.

Terrifies New York by Wild Dash Across Town and Is Subdued With Difficulty.

(BY THE ASSOCIATED PRESS.—P.M.)
NEW YORK, Oct. 4.—A street car filled with terrified passengers dashed across New York at full speed, while the maniac driver, Lee Schwartz, suddenly bereft of his reason, stood on the forward platform flourishing a heavy controller bar and threatened to brain any one who approached.

He was finally subdued and the car brought to stop after a desperate struggle with half a dozen policemen and street railway employees, during which several persons jumped from the swiftly-moving car and sustained painful injuries. One of the men who found the mad motorman was severely injured.

PARTNERS BANKRUPT.

Letter File Manufacturers File Petition. Debts Amount to \$300,000.

(BY THE ASSOCIATED PRESS.—P.M.)
CHICAGO, Oct. 4.—Dawson & Dawson, letter-file manufacturers, filed a petition to the bankruptcy court, setting out combined debts amounting to \$300,000. The partnership debts aggregate only about \$11,000, while the personal indebtedness of each makes up the remainder of the obligation. The failure of the firm is said to be due to the failure to realize on mining securities valued at half a million dollars.

The Northern Pacific Railway Office has removed to its new location at 545 South Spring street, where elegant quarters are being fitted up. If you are thinking of making a trip East you would be pleased to have the service and special features of the Northern Pacific. Rates to all eastern points called service are special. For full information call on or address C. E. Johnson, Traveling Passenger Agent, 545 South Spring street, Los Angeles, Cal.

GO SLOW ON A COLLEGE.

Los Angeles Baptists Do Not Take To It.

Congregationalists Will Meet Next Week.

Nazarenes Talk of Their Bible College.

The report of the special committee of fifteen, appointed at a former meeting, was read yesterday at the Los Angeles Baptist Association in session at Pasadena, upon the subject of the proposed union between the Baptists, Congregationalists and Disciples in the management of Pomona College.

The committee made no recommendation, but threw its report into the conference for general discussion, with the result that the proposition to unite was rejected, so far as this association is concerned, though the matter will be submitted at the meeting of the Southern California convention, to be held in this city next month.

The report, which was read by Rev. W. C. Cressy, discussed the matter from the standpoint of the value of the Baptist College property in this city, and how leased to the Los Angeles Baptist Association. This property is worth possibly \$100,000, but is burdened with a heavy mortgage, the amount of which was not stated. This mortgage has over two years yet to run, and as the property is rapidly depreciating in value, it was thought advisable to hold on for a time longer, in the hope of becoming able to support an institution of their own.

The proposition for joint management, made by Pomona College, was explained and there were many expressions of appreciation of the general offer. Prof. Mayville Doster declared that "a fairer, more generous proposition was never made, though the advisability of accepting it is a matter of individual opinion." He was non-committal.

T. E. Tompkins of Pasadena favored the union, saying that he had been a first-rate union college than a third-rate Baptist college.

Rev. W. S. Gage of Covina thought a union of the proper kind would be the purpose intended in its contribution and besides that, he wouldn't care to send his boy to a "conglomerate" college.

U. F. Ward of Pasadena said a small college could be a first-rate college and that the best mission work has been done in denominational colleges.

Rev. U. Gregory said the world would come when a creditable Baptist college could be instituted near Los Angeles.

Rev. G. A. Cleveland expressed essentially the same opinion.

Rev. R. Thompson of Riverside thought it would be impossible to conduct a new-sided institution without discord in the family, and that an aggressive denominational institution gives a "badly mixed" result.

U. F. Ward of Pasadena said: "Southern Baptists are an ungodly lot, and the people of the whole country would be disgraced at the confession of infidelity on the part of the people here who maintain a denominational institution."

The question is not, "How did the institution get in the hole?" but "Can we get it out?"

A. A. Northrup of the First Baptist Church, this city, thought the college plan was perfectly feasible.

C. C. Pierce of Memorial Church said that was the case a committee should be appointed at once to enforce the same.

A. Griffith of Azusa advised caution, fearing that hasty action might lead to disaster.

A. A. Gould of Los Angeles thought there should be no hurry in making a proposition simply because it had been made, and that the day was not far distant when the Baptists of Southern California will be equal to any demand that might be made upon them.

At the woman's missionary meeting in the afternoon Mrs. Davies and Miss Oakman, two of the missionaries about to go to China, were introduced and made interesting talks.

Last night Rev. A. H. Smith of Pasadena spoke at the Model Church, Rev. A. S. Phelps on "What Shall We Do About It?" and Rev. A. M. Petty on "The Church of the Future."

The meetings were all delightful and profitable and the entertainment by the people of Pasadena hospitable. The association adjourned last night well pleased. The next meeting will be held in the East Los Angeles church, and the annual sermon will be preached by Rev. H. Russell Greaves of Monrovia.

CONGREGATIONALISTS.
GENERAL ASSOCIATION MEET.
It is possible that at the meeting of the General Association of Congregationalists at Claremont next week, something of interest may develop on the question of the proposed union of management of Pomona College. The meeting will begin with a young people's meeting on Monday evening, and "sermons" will close at 3 o'clock on Thursday afternoon. On Tuesday afternoon, Rev. J. W. Bartlett, of the Bethlehem Baptist Church, will give a social address, "The Church of the Present Day." On Wednesday afternoon, George W. Marston, of San Diego, will give a social address, "A Layman's View of the Situation."

NAZARENE ASSEMBLY.
TALKS ON EDUCATION.
At the session of the Nazarene General Assembly yesterday afternoon, the platform was filled with thirty or forty students of the Pacific Bible College at Hollywood, and the meeting was a most enthusiastic one, from a spiritual point of view.

CHAPLAIN HONORED.
RECEIVES GIFT OF WATCH.
Rev. Henderson Judd, the veteran minister of Bishop Johnson, was made the recipient of a handsome and valuable token of regard from the managers of the Hospital of the Good Samaritan, in the form of a gold watch, inscribed as follows:
"The Hospital of the Good Samaritan to the Rev. Henderson Judd, in grateful appreciation of his loving services as chaplain, 1899-1906."

Mr. Judd, after serving seven years as chaplain of the hospital, wished to resign, but was held in the place until the death of the late pastor, Rev. C. W. Ruth of Indianapolis, former assistant pastor of the Nazarene church in this city.

There will be a business session this morning, and an evangelistic anniversary in the afternoon. One of the speakers at the latter will be Rev. C. W. Ruth of Indianapolis, former assistant pastor of the Nazarene church in this city.

BRIDEGROOM ON HONEYMOON.
Loses His Young Wife.
The collision took place on a heavy grade and a sharp curve. The passenger train was about one hour late when it reached Lansingburg station, and was waiting there for a chance to get into Troy depot.

Without apparently any warning the special came thundering along with eighteen cars and crashed into the passenger train, smashing the last two cars, which were Pullmans, like eggshells.

The special was drawing four troops of the Fourteenth United States Cavalry from Fort Ethan Allen to Newport News, where they are to embark for Cuba. The soldiers quickly got to work to rescue the injured.

Many of the passengers on the regular had left the train when it came to a standstill and were piling up and down the track when the crash came. One man's grief was pitiable. His name was J. W. Dacey, and he ran up and down the track crying for his wife. A few minutes later his form was identified. They had been married last night at Arlington, Mass., and were on their honeymoon, having planned an extensive trip.

Capt. Datschkowsky who was shot and killed in a Moscow street, was assassinated in pursuance of a sentence of the revolutionists. He was commander of a company of the Petrova regiment which, on August 18, killed two political agitators during an outbreak among the political offenders confined in the central prison of Moscow.

Smith had the money in his pocket when captured by Wipf and begged the farmer to take it and let him go, but he begged in vain.

Wipf proceeded, after capturing the burglar, to bind him hand and foot with a stout rope, and then tossing his prisoner into a light wagon, drove to Omaha just before day had broken.

Smith, a desperate looking villain, drew a revolver when Wipf discovered him ransacking his house, and fired with intent to kill. The bullet inflicted a slight wound on Wipf, but did not cause him to give up the fight. He grappled the burglar and after a desperate struggle, which both men were badly hurt, finally dealt Smith a blow that put him to sleep. Then he called his wife and with a rope she brought him, he bound the burglar hand and foot and started alone with him for the city.

COLORADO RIVER IS TURNED.
New Works Stand Severe Test of High Water and Success of Plan is Assured.
[BY THE ASSOCIATED PRESS-P.M.]
IMPERIAL, Oct. 4.—[Exclusive Dispatch.] John Wipf, a truck farmer living a few miles west of Omaha, early this morning refused an offer of \$3000 to release from custody John Smith, a burglar, whom he had caught in the act of robbing his house.

Smith had the money in his pocket when captured by Wipf and begged the farmer to take it and let him go, but he begged in vain.

Wipf proceeded, after capturing the burglar, to bind him hand and foot with a stout rope, and then tossing his prisoner into a light wagon, drove to Omaha just before day had broken.

Smith, a desperate looking villain, drew a revolver when Wipf discovered him ransacking his house, and fired with intent to kill. The bullet inflicted a slight wound on Wipf, but did not cause him to give up the fight. He grappled the burglar and after a desperate struggle, which both men were badly hurt, finally dealt Smith a blow that put him to sleep. Then he called his wife and with a rope she brought him, he bound the burglar hand and foot and started alone with him for the city.

MANIAC DRIVES CAR.
Terrifies New York by Wild Dash Across Town and is Subdued With Difficulty.
[BY THE ASSOCIATED PRESS-P.M.]
NEW YORK, Oct. 4.—A street car filled with terrified passengers dashed across New York at full speed, while the motorman, Leo Schwartz, suddenly became the victim of a madman who, standing on the platform, brandishing a heavy controller bar and threatened to brain any one who approached.

He was finally subdued and the car brought to a stop after a desperate struggle with half a dozen policemen and street railway employees, during which several passengers jumped from the swiftly-moving car and sustained painful injuries. One of the men who fought the mad motorman was severely injured.

PARTNERS BANKRUPT.
Letter File Manufacturers File Petition. Debts Amount to \$300,000.
[BY THE ASSOCIATED PRESS-P.M.]
CHICAGO, Oct. 4.—Dawson & Dawson, letter-file manufacturers, filed a petition in bankruptcy today, setting up combined debts of almost \$300,000. The partnership debt aggregate only about \$11,000, while the personal indebtedness of each makes up the remainder of the obligation. The failure of the firm is said to be due to the failure to realize on mining securities valued at half a million dollars.

THE NORTHERN PACIFIC RAILWAY.
Office has removed to its new location at 543 South Spring street, where elegant quarters have been secured. If you are thinking of making a trip East we would be pleased to have you call and learn regarding our route, scenery, etc., and secure some of our interesting literature. Grand scenery, unequalled service and special features of the Northern Pacific. Rates to all eastern points as low as by any line. For full information call on or address C. E. Johnson, Traveling Passenger Agent, 543 South Spring street, Los Angeles, Cal.

FIVE DIE WHEN TRAINS CRASH.

Military Special Collides With Regular Passenger.

Death List May Swell from Score of Injured.

Bridegroom on Honeymoon Loses His Young Wife.

[BY THE ASSOCIATED PRESS-P.M.]
LANSE, 'BURGO "Y. Y. Oct. 4.—Five passengers were killed outright and a score injured in a rear-end collision between a regular passenger train and a military special on the Boston and Maine Railroad, directly in front of the Lansingburg station, about 5 o'clock today.

The dead are:
H. L. BLOCK, Peoria, Ill.
MRS. WALLACE E. SHAW, Bath, Maine.
MRS. STEVENS, Boston.
MRS. J. W. DACEY, Arlington, Mass.
MRS. H. S. POOLE, Concord, N. H.

Among the most seriously injured were:
W. VAN FOSSETT and wife, Boston; burned.
FRANK BELCHER, Medford, Mass.; both legs fractured.
GEORGE STEVENS, Winchester, Mass.; compound fracture of ankle and arm.

MRS. F. L. BLOCK, Peoria, Ill.; believed spine fractured.
MISS MASON, Bath, Maine; leg crushed.

The collision took place on a heavy grade and a sharp curve. The passenger train was about one hour late when it reached Lansingburg station, and was waiting there for a chance to get into Troy depot.

Without apparently any warning the special came thundering along with eighteen cars and crashed into the passenger train, smashing the last two cars, which were Pullmans, like eggshells.

The special was drawing four troops of the Fourteenth United States Cavalry from Fort Ethan Allen to Newport News, where they are to embark for Cuba. The soldiers quickly got to work to rescue the injured.

Many of the passengers on the regular had left the train when it came to a standstill and were piling up and down the track when the crash came. One man's grief was pitiable. His name was J. W. Dacey, and he ran up and down the track crying for his wife. A few minutes later his form was identified. They had been married last night at Arlington, Mass., and were on their honeymoon, having planned an extensive trip.

Capt. Datschkowsky who was shot and killed in a Moscow street, was assassinated in pursuance of a sentence of the revolutionists. He was commander of a company of the Petrova regiment which, on August 18, killed two political agitators during an outbreak among the political offenders confined in the central prison of Moscow.

AUTUMNAL CATARRH.
Diseases Prevalent Now. Hyomei Will Cure it Quickly.
A great many people suffer more with catarrh during the fall months than at any other season of the year, as changes in weather seem to have a bad effect upon the disease.

At the first warning of catarrh, one should begin the use of Hyomei. A few days' treatment will often prevent a serious attack of this distressing and annoying disease.

There is no stomach dosing with Hyomei. It cures catarrh by the simple and natural method of breathing medicated air into the nose, throat and lungs, in this way killing the germs of catarrhal poison, healing and soothing the irritated mucous membrane and entering the blood with the oxygen, thus driving all catarrh germs from the system.

If you have any of the ordinary catarrh symptoms, such as offensive breath, burning pains in the throat, coughing, raising of mucous, difficulty to breathe, sneezing, huskiness, discharge from the nose, droppings in the throat, coughing spasms, etc., begin the use of Hyomei at once.

A complete Hyomei outfit costs but \$1.00, extra bottles sold, and your money will be refunded unless it cures.

Write us today for symptom blank and one of the best catarrh specialists will give you without charge personal advice and whatever prescriptions you may need. All druggists are authorized to refund the purchase price on Hyomei, should it fail to give satisfaction, but if your druggist will not refund, return the empty package and inhaler to us, and we will comply with guarantee. The R. T. Booth Co., Buffalo, N. Y.

*Gigantic Deal Is Engineered
by Steel Magnates.*

*Claim Is Made They Control
30,000,000 Bushels.*

*Leading Markets of Country
Have Big Orders.*

(BY DIRECT WIRE TO THE TIMES.)

CHICAGO, Oct. 4.—[Exclusive Dispatch.] Charles M. Schwab, the steel magnate, and some of his Wall-street associates are believed to be interested in the purchase of the steel mills in the West, and in their operations, according to well-informed brokers, extend to all the leading markets of the country, though the steel mills in the West are those where recent heavy purchases by A. I. Valentine, former president of the Armour Grain Company, which stirred the Board of Trade, are believed to have been made. These mills are believed to have been made targets for the eastern crowd.

The holdings of the steel empire are estimated by some to be as high as 100,000,000 tons. The steel mills are the figure advanced by more conservative traders.

Most of this wheat is held by Shawsheen, and some of the other members of this concern are said to be identified with the "steel crowd," and it has been suggested that the steel mills as to the identity of the men said to

be behind the attempt to boost the market.

that the combined holdings of the bull crowd in this and other markets would easily reach 30,000,000 bushels.

BUYS IN COLORADO.

Son of Former Proprietor of Hotel Coronado Invests in Residence Property.

[BY DIRECT WIRE TO THE TIMES.]

COLORADO SPRINGS (Colo. Oct. 4.—[Exclusive Dispatch.] The largest individual real estate deal in Colorado Springs was consummated yesterday and today when Graham E. Babcock of San Diego, Cal., purchased a large lot of real estate for \$17,000 and today bought the R. J. Boiles residence at No. 1233 North Cascade avenue for \$50,000 cash. The property is a twenty-room, three-story structure, and one of the finest in Colorado Springs. The grounds, grown over by W. P. Bonbright. Babcock is a

son of the former owner of the famous Hotel del Coronado.

PLEASED WITH WORK.
McKinley Memorial Trustees Visit
Late President's Wife and Mon-
ument Hall.
(BY THE ASSOCIATED PRESS.—P.M.)
CANTON, O., Oct. 1.—The McKin-
ley Memorial Association trustees,
among them being Vice-President
Fairbanks, held a meeting here today,
and this afternoon called on Mrs. Mc-
Kinley, who is expected to take to
Monument Hall, where the work of
construction of the national memorial
was inspected. The trustees were much
pleased with the work.

and Oklahoma are struggling

for the pennants at a corn carnival now being held in this city, W. J. Black, general passenger traffic manager of the Santa Fe Railway, said today that the carnival samples of "white and yellow dent" corn sent from Franklin county, Kansas, are attested to average ninety bushels to the acre, while samples from Newton, Kay county, Oklahoma, are certified by the Clerk of Kay County Court to average 100 bushels to the acre.

A cornstalk sent from Wichita, Kan., measures 21 feet 7 inches in height. It is sixteen feet to the first ear, and there are five ears on the stalk.

THE CITY IN BRIEF

NEWS AND BUSINESS.

Foot Burned.

Prof. W. J. Kennard, vice-president of the Los Angeles Business College, burned his foot severely on Tuesday evening last, by accidentally upsetting a cup of gasoline.

West Another School Nurse.

The Board of Health last night passed a resolution requesting the City Council to amend an ordinance so that another school nurse could be appointed. At present the city has but one school nurse employed for the city or more public schools of Los Angeles. There is urgent need of more help in this direction to keep contagious diseases and pests out of the city's schools.

New Circle of Druids.

Golden West Circle No. 18, United Ancient Order of Druids, will be initiated this evening in Odd Fellows Hall on South Main street, by the Grand Arch Druids, Mrs. M. Hamman, and Grand Secretary Mrs. Anna Thornhill. The grand, grove session will meet in Los Angeles in June 1937. The Executive Committee for that gathering is: Alexander Morrison, president; William H. Jones, vice-president; Fred Charbonnier, treasurer; A. E. Bayer, secretary; Peter F. Smith, assistant secretary.

West and Fruit Condensed.

The semi-monthly report of the fruit inspector, made to the Board of Health last night showed that 17,500 pounds of fruit had been condemned within the past two weeks. This included 125 pounds of apples; 350 pounds of lemons; 500 pounds of apples; 175 pounds of pears; 250 pounds of grapes; 100 pounds of cantaloupes; 350 pounds of plums; 15 pounds of peaches; 50 pounds of figs and 450 pounds of tomatoes. The meat inspector reported the condemnation of three calves for being underweight; fifty pounds of beef and eighty pounds of pork, which were decomposed.

BREVITIES.

J. W. Frey has moved his stock of mantels, grates, tiles and andirons to his warehouse at corner of Los Angeles and Fifth streets, where he can be seen the largest assortment of mantels and brass fireplace trimmings to be found in the United States at lowest prices.

Shiny shoes will have the first call for fall and winter wear. A pleasure to show them, the values at W. J. Cummings Shoe Co., corner Fourth and Broadway.

The Independent Church of Christ, Eighteenth and Figueroa streets, will resume next Sunday morning.

L. O. Shaw returned from his tour of duty in the Philippines. He is now at the residence of his parents, 639 S. Grand, Phone 9381.

Children's shoe store, 204 S. Broadway, D. B. Bonferr, 212 S. Broadway, Dr. B. F. Church returned.

SHE DENIES IT.

Woman Accused of Infidelity, in Counter-Charge, Declares It Is Not True.

(BY DIRECT WIRE TO THE TIMES.) OMAHA (Neb.) Oct. 4.—[Exclusive Dispatch.] The deposition of Mrs. Fannie Rice Bassett, daughter of ex-Senator Rice of Arkansas, in the divorce suit instituted by her husband, Charles C. Bassett of Washington, D. C., was taken before Special Examiner Dickinson in the Federal Court today.

In her deposition Mrs. Bassett makes a general and specific denial of all the allegations made in her husband's petition.

Mrs. Bassett first instituted divorce proceedings against her husband in the District Court here, alleging non-support, false accusations and cruelty. This suit was kept secret for a period, but upon the Bassett receiving official notice of the suit he at once filed a counter petition, alleging infidelity and adultery.

In the suit filed here, Mrs. Bassett was granted an order for temporary alimony, pending the final settlement of the case.

TREASURY IN DISTRESS.

Russian Minister of Finance Reports Dire Straits of Government's Money Vault.

(BY THE ASSOCIATED PRESS—A.M.) PARIS, Oct. 4.—The Times this afternoon prints a confidential report made by Minister of Finance Kogolov to Premier Tsyngolys, expatiating on the dire straits of the Russian treasury, the impossibility of concluding another exterior loan, and the pressing necessity for cutting down expenses.

The report reveals the fact that Japan asked for \$150,000,000 more for the maintenance of the Russian troops than had originally been estimated.

DE FOREST ASKS DIVORCE.

Wireless Telegraph Inventor Names Millionaire Dewitt C. Flannagan as a Co-Respondent.

(BY DIRECT WIRE TO THE TIMES.) NEW YORK, Oct. 4.—[Exclusive Dispatch.] The first motion of wireless telegraph has proved a failure. Dr. Lee De Forest, vice-president of the American De Forest Wireless Telegraph Company, is suing his bride of seven months, whom he wooed and won by means of wireless telegraph, for absolute divorce, naming Dewitt C. Flannagan, the millionaire president of Flannagan, Nay & Co., a brewing concern, as co-respondent.

The wedding of the De Forests last February at the St. Regis was a notable affair. For two months or more there has been an interruption in the communication between the noted young inventor and his bride, who leaving his home after a quarrel and going back to live with her mother.

The delay of the present Turkish commissioners to sign the report resulting from the inquiry into the frontier dispute regarding the delimitation of a portion of the Vilayet of Adrianople, which led to a sharp fight recently between the soldiers guarding the Bulgarian post at Shujik, has brought out practically an ultimatum from Bulgaria in which it is declared that the ultimatum is signed by October 14 the Bulgarian troops will be ordered immediately to occupy Shujik.

TO PACIFY CABINET.

Marquis Ito Will Leave Korea in November—Disensions in Japanese Parties.

(BY THE ASSOCIATED PRESS—P.M.) VICTORIA (B. C.) Oct. 4.—Marquis Ito is to return from Korea in November to patch up serious differences which have arisen in the Japanese Cabinet, according to advices received today by the steamer Toei Maru.

Disensions have been caused between the military and civil parties as the result of persistent interferences of the military party in state affairs, especially with regard to the policy in Manchuria and Korea, which is strongly objected to by the military section.

Fearing that friction would result in the disruption of Marquis Salome's Cabinet, some members of the cabinet privately wrote to Marquis Ito, and he has agreed to return to endeavor to arrange the difficulties satisfactorily.

Some alarmist dispatches have been printed by Japanese papers from Harbin to the effect that the Russians are rapidly pushing forward the defense works at Harbin, a line of forts extending for miles being under construction. Some dispatches speak of troops also being massed. One correspondent says:

"This clearly shows that Russia intends to wage a war of retaliation against Japan."

A Mukden dispatch says Russians are employing Chinese spies to inform them of the movement of the Japanese troops in Manchuria.

The American Minister at Peking is reported by Japanese correspondents to have sent a notice to the Russian Minister asking for the opening of Manchuria to trade and stating that negotiations will be opened with China to that end if Russia fails to throw open the places still closed.

NINETY FAMILIES UNHOUSED.

Fire Drives Them to Street, Threatens Property Worth Millions—Injures Three Firemen.

(BY THE ASSOCIATED PRESS—A.M.) NEW YORK, Oct. 4.—Ninety families were driven from their homes, three firemen were injured, property valued at \$50,000 destroyed and surrounding property threatened by a fire which started early today in a four-story building in Frankfort street.

One of the buildings which was threatened was St. Gregory's Hospital, where 125 patients and their families are being cared for the excited patients.

The fire spread to three four-story tenement houses adjoining. Ninety families who were sleeping in the tenement houses were aroused, and most of the occupants had no trouble in reaching the street.

NOW CANNING "HOT STUFF."

New Industries Started in Los Angeles.

Chile Peppers Promise 'All Kinds of Fortunes.'

Tourists Spread Renown of City's Dainties.

A new industry was started in this city yesterday, that of preparing for the wholesale market Mexican-canned foods and dainties to which the chile pepper forms an important item. Such food-stuffs have never before been put up in this way for the market.

"Hot stuff" is getting popular in all sections of the United States, and is about the "hottest stuff" is a chile pepper there is a greater demand for the red pod than ever before and greater than can be supplied.

One reason put forward for this growing demand for the chile pepper from so many quarters is that tourists coming to Los Angeles acquire the taste for Spanish dishes and securing recipes reproduce the tasty dishes at home and pass along the recipe to their neighbors.

But whatever the cause there has suddenly developed this extraordinary demand for the "hot stuff" and there are careful orders from many parts of the country which cannot be filled.

Naturally the price of chiles has boomed. Last spring the retail whole-sale for dried peppers was 15 cents a pound, now it is from 12 to 13 cents and not enough at this price. Farmers in all parts of Southern California are beginning to turn their fields to the cultivation of the chile, but the home of the chile at present is about Anaheim, Fullerton and Santa Ana.

BLAZE RED PEPPERS

Near Santa Monica is a rancher who raises what is called the black chile, which has a thicker skin and a sweet flavor, though just as hot as the old-fashioned kind. This is the only ranch of black peppers known of near Los Angeles.

Vice-president J. B. Jacobs of the Simon Levi Company, produce dealers, stated yesterday that his firm had orders from the North and East for about three carloads of chiles which could not be filled. The firm has about a ton of chiles to the acre and received over \$200 a ton for them evaporated.

To supply the growing demand this firm has had made a large carton by The Times-Mirror Company, showing the features of peppers in color. These cartons hold half and one pound of the evaporated chile and are intended to supply the retail trade in all parts of the country, thus securing another new enterprise for Los Angeles.

But the little red pepper means still more to the growing industries of this city. This week there was opened at the corner of Colton and Vincent streets a model up-to-date packing-house under government supervision, which is branching out into practically unknown fields.

This is the Morris Provision Company. This house is as white as white wash and soap and can make it. It has had installed one of the two vacuum packing machines on the Pacific Coast, and it is making a specialty of Mexican canned goods in which chile peppers hold an important position.

This vacuum machine is a wonderful one. It sucks all the air out of a can and then seals it. It is in charge of David H. Rhoads, who has for fifteen years been developing packing-house industries for Armour.

One of the most important men in the establishment, however, is Valdivia Fernandez, a Chilean, who is the "chef" of the house. He it is who gets up the toothsome Spanish dishes which will be canned and sent broadcast.

CHEAP PORTER-HOUSE

Besides this plant has one of the finest cold-storage meat boxes in the West, and Mr. Morris buys all his beef on the hoof and does his own killing. His port-houses steer cost him, he says, about four and a half cents a pound.

The picture shows a corner of his packing-house upstairs in which chile peppers are sorted preparatory to being canned.

MEXICAN Dainties

Besides putting up chile sauce there will be frijoles and chile, "cebolla," which is a preparation of beef, pork and chile sauce; shredded beef as a

Scene in a corner of the Morris Provision Company's plant showing piles of chile peppers and the pretty Spanish girls and other employees at work.

substitute for hamburger steak; "albondigas," which is a Chilean preparation, and "menudo," a Mexican dainty composed of tripe, corn, chile and the hoofs of cattle. This is considered a great dainty.

"Everything here is clean and what we put up is the real thing," said Mr. Rhoads yesterday. "But in the East I have made potted ham out of most everything there was."

Albert J. Morris, head of the company, says he is a phenix. He was proprietor of a \$400,000 packing plant in Kansas City, but was totally ruined by the flood there three years ago. Now he has come to Los Angeles after a two years' experience in Mexico and will introduce for the first time Mexican national food products in cans for the American public.

The output of green chiles for Southern California amounts to between 7500 and 10,000 tons a year. About 700 tons green are canned, about twenty tons are ground into pepper and the rest when evaporated makes about 500 tons of dried chile.

There is a great chance in this country for ranchers to make a good profit in peppers and the prices will probably be steady. As Mr. Morris stated yesterday, "This coast presents a wonderful field for commercial enterprise."

SHIRINERS AT WHIST.

Visiting Club and Ladies' New Auxiliary Play Cards and Dine at Warming of Clubhouse.

One hundred visiting Shriners gathered at No. 1638 South Figueroa street last night at a progressive whist party held under the auspices of the newly-organized Ladies' Auxiliary of the Visiting Shriners Club. The affair was the first of a series of bi-weekly entertainments the auxiliary has planned for the winter season, and also marked the entrance of the Shriners into their new home.

After the whist party an elaborate banquet was served in the dining hall of the clubhouse. The Shriners appearing in full evening regalia—tuxedo, white vest, red satin tie, and scarlet fez.

The new quarters of the Visiting Shriners have been fitted in elaborate style. The hallway is hung with large numbers of pennants, representing all of the hundred or more temples of the national order, former devotees of which are included in the \$500 membership fund. The reception room is handsomely furnished and the beautiful table of inlaid wood, presented several weeks ago by Dr. George H. Bailey of Yuma, and other valuable possessions of the order are to be seen there.

A covered porch has been added, and the house has been entirely remodelled to suit the purposes of the organization, and has a historical interest, being the old Herman W. Hellman cottage, situated originally at Fourth and Spring streets, and moved some years ago to make way for the big office structure that now occupies the site.

For some time the house has been an extension dance floor for the Shriners, and it is a feature of future entertainments.

The adventures of the man who worked for charity at the Barlow fete and couldn't get over it.

WOMAN ON GUARD HOLDS BAD BOYS.

NO YOUNG ruffian has had the courage to break jail since a woman with a glittering eye has taken the job and the keys of one of the men jail guards at the Juvenile Detention Home.

Her name is Mrs. A. Hyatt. She is said to be the best guard they ever had at that institution. Boys have organized conspiracies and broken away from most of the other guards. Mrs. Hyatt settles them with a look.

They have read dime novels enough to yearn to struggle with the bold and husky jailer as they do in the books; but the memories of mother's slipper are usually too tender and too awful to risk tackling Mrs. Hyatt.

She has recently been appointed to take the place of Mrs. Cook, who was murdered by her husband on a Santa Monica city-bound car some weeks ago. There was trouble in the home because the male guards insisted on not working more than eight hours a day. So the woman immediately volunteered to take the place of one of the work-by-the-clock men.

For some hours of the day she is the only guard on which only her own big swinging keys intervene between a prison full of husky big boys and the matron, in the hours, Mrs. Pratt, the matron, is the sole custodian.

Neither one has had the slightest trouble in controlling and punishing prisoners. The boys treat them with every respect, and seem to try to please both of these women.

It seems odd, however, when you ring the bell of the big, grim, cold-looking prison, to have it answered by the face of a woman at the bars.

WOULD BUY CITY LANDS.

G. L. Dean, a rancher of the Owens River Valley, who has a tract of 220 acres near Independence, yesterday asked the Board of Public Works to sell him a tract of 160 acres which would be doing it for money. As this land was purchased simply to secure the water rights, the city at the present time has no use for it other than for this direct purpose. The proposition was referred to the City Attorney.

The only woman jail guard in the business; she puts down jail breaks at the Detention Home with a glare over her specs.

PEACE BROODS AFTER JANGLE.

Holley and Meyer Dicker With Metals Company.

General Securities Company Not Now Fiscal Agent.

But in Case of Standard Mines, Fight Still On.

The hatchet has been buried and peace broods over the tangled affairs of the Tempered Ductile Metals Company and the General Securities Company. In the past few weeks criminal actions and recriminations have been hurled back and forth; the retort courteous gave place to the retort discourteous and the counter-check quarrelsome came into prominent view. Suits followed—suits in law, also suits in equity in behalf of a group of stockholders in the metals company; and on behalf of J. E. Meyer and W. V. Holley, officers in both the companies, libel suits against some of the stockholders, with damages of \$300,000 asked.

Now a compromise has been arranged, and all the suits will be withdrawn. The two companies will go their separate ways henceforth, and all rancor and bitterness are officially in oblivion.

The metals company has a new directorate, and a new set of officers, in which the names of Holley and Meyer are absent, and in return an individual has been assumed that is stated at about \$18,000. Also \$61,283 shares of stock, held by Holley and Meyer, have been returned by them to the company.

Yesterday afternoon the details of the arrangement were gone over and the papers signed. Immediately thereafter a new board of directors was elected, the men chosen being Robert E. Paulson, H. E. Schultz, C. F. Dawson, Herbert J. DuBois and John W. Kemp. Mr. Paulson was also elected president of the Tempered Ductile Metals Company. Mr. Schultz, secretary, Mr. Dawson, treasurer and Mr. Kemp vice-president.

NEW MEN IN CONTROL.

The new president, Mr. Paulson, was the chairman of the stockholders' meetings and Mr. Schultz was secretary. Both were prominent leaders of the stockholders, and Mr. Kemp was the attorney having their interests in charge. Thus the control of the metals company has passed entirely into the hands of those who began and conducted the fight against Holley, Meyer and Bishop.

The \$61,283 shares of stock that Holley and Meyer returned were their property, and in addition to them, about 200,000 more shares of treasury stock still unsold will revert to the metals company. The agreement between the metals company and the General Securities Company, whereby the latter acted as fiscal agent for the former, has been rescinded, and a complete severance of all connection effected.

START OF TROUBLE.

The trouble that has been laid at rest started in the latter part of August, after many mutterings of discontent. The General Securities Company was acting as fiscal agent for the metals company, as it was for several other companies. It was a matter of less interest, W. V. Holley was president and J. E. Meyer treasurer of the metals company, and at the same time Holley was president and Meyer secretary of the securities company.

In a suit filed August 25 on behalf of some stockholders, serious allegations were made against these officers, charging that they were using the securities company as a bill and attempting the ruin of the metals company for their own gain, and demanding their removal. Stockholders' meetings followed, in which the two sides were evenly matched, and a circular was sent to the stockholders, signed by a committee of seven. This circular was made the basis of libel suits brought by Holley and Meyer, asking for damages of \$300,000.

During this time a compromise was arranged, and was apparently settled when it fell through. The reason for this was stated at the time to be a fear on the part of certain creditors of the General Securities Company that its assets would be impaired by the move.

Following this a suit in equity covering the new conditions was filed on behalf of the stockholders in the Federal courts, and there the matter rested until yesterday.

Work will start up in the factory of the metals company as soon as possible, according to the new president, Mr. Paulson. The factory has been closed since the end of June, and was for a time under attachment. Dr. Vaughn, inventor of the process and manager of the factory, has been telegraphed for, and will return to Los Angeles on once.

ONE CASE UNTANGLED.

LIBEL SUITS INVOLVE OTHER.

While the relations between the Tempered Ductile Metals Company and the General Securities Company have been cleared up, the relations between the Standard Mines Company and the General Securities Company were at the same time rendered more involved, by the filing of four libel suits in the Superior Court yesterday, through the arm of Kester, Noyes & Bowler.

J. E. Meyer has filed two of them, one against Mr. W. V. Brooks and one against R. G. Patterson. W. V. Holley has filed the other two, against the same persons. In all four suits of \$50,000 is asked as damages, making a total of \$200,000 demanded.

The basis of the suits is a suit filed by Mrs. Brooks and Mr. Patterson as stockholders in the Standard Mines Company, charging that Holley and Meyer had appropriated money of the company to their own use. This complaint, which is sworn to, is alleged to be libelous by Holley and Meyer, and consequently they have begun what they term "vindication" suits.

Mr. Meyer is the president of the mining company, which acts as fiscal agent for the mining company. Mr. Holley is secretary of the mining company, and president of the securities company. In this case, as in that of the Tempered Ductile Metals Company, of which Mr. Holley was until yesterday president and Mr. Meyer secretary, it is charged by several of the stockholders that the securities company is used as a "blind" for the transfer of money into the pockets of Holley and Meyer.

Holley and Meyer also filed libel suits asking for more than \$200,000 damages against A. E. Wiley a few days ago, in the same case.

NOW CANNING
"HOT STUFF."New Industries Started in
Los Angeles.Chile Peppers Promise All
Kinds of Fortunes.Tourists Spread Renown of
City's Dainties.

A new industry was started in this city yesterday, that of preparing for the wholesale market Mexican canned foods and dainties in which the chile pepper forms an important item. Such food-stuffs have never before been put up in this way for the market.

"Hot stuff" is getting popular in all sections of the United States and as about the "hottest stuff" is a chile pepper there is a greater demand for the red pod than ever before and greater than can be supplied.

One reason put forward for this growing demand for the chile pepper from so many quarters is that tourists coming to Los Angeles acquire the taste for Spanish dishes and securing recipes reproduce the tasty dishes at home and pass along the recipe to their neighbors.

But whatever the cause there has suddenly developed this extraordinary demand for the "hot stuff" and there are carload orders from many parts of the country which cannot be filled.

Naturally the price of chiles has boomed. Last spring the rate wholesale for red peppers was 10 cents a pound, now it is from 12 to 13 cents and not enough of this pepper is available in all parts of Southern California are beginning to turn their fields to the cultivation of the chile, but the home supply of the chile at present is about Anaheim, Fullerton and Santa Ana.

BLACK RED PEPPERS.

Near Santa Monica is a rancher who raises what is called the black chile, which has a thicker skin and a sweeter flavor, though just as hot as the old-fashioned kind. This is the only ranch of black peppers known of near Los Angeles.

Vice-president J. B. Jacobs of the Simon Levi Company, produce dealers, stated yesterday that his firm had orders from the North and East for about three carloads of chiles which could not be filled. Ranchers raised about a ton of chiles to the acre and received over \$200 a ton for them evaporated.

To supply the growing demand this firm has made a large carton by the "Times-Mirror" Company, featuring the festoons of peppers in color. These cartons hold half and one pound of the evaporated chile and are intended to supply the retail trade in all parts of the country, thus securing another new enterprise for Los Angeles.

But the little red pepper means still more to the growing industries of this city. This week there was opened at the corner of Colton and Vincent streets a meat up-dressing establishment under government supervision, which is branching out into practically unknown fields.

This is the Morris Provision Company. This house is as clean as white-wash and soap-suds can make it. It has had installed one of the two vacuum packing machines on the Pacific Coast, and it is making a specialty of Mexican canned goods in which chile peppers hold a prominent position.

This vacuum machine is a wonderful one. It sucks all the air out of a can and then seals it. It is in the charge of David H. Shogren, who has for fifteen years helped develop packing-house industries for Armour.

One of the most important men in the establishment, however, is Valdivia Fernandez, a Chilean from Valparaiso, who is the "chef" of the house. He it is who gets up the toothsome Spanish dishes which will be canned and sent broadcast.

CHEAP PORTER-HOUSE.

Besides this the plant has one of the finest cold-storage meat boxes in the West, and Mr. Morris buys all his beef on the hoof and does his own killing. His porter-house steaks cost him, he says, about four and a half cents a pound.

The picture shows a corner of his packing-house upstairs in which chile peppers are sorted preparatory to being canned.

MEXICAN DAINTIES.

Besides putting up chile sauce there will be frijoles and chile; "chorizo," which is a preparation of beef, pork and chile sauce; shredded beef, and a

had at that institution. Boys have organized conspiracies and broken away from most of the other guards. Mrs. Hyatt settles them with a look.

They have read dime novels enough to yearn to struggle with the bold and jaunty jailers as they do in the books; but the memories of mother's slipper and a prison full of husky big boys are usually too tender and too awful to risk tackling Mrs. Hyatt.

She has recently been appointed to take the place of Mrs. Cook, who was murdered by her husband on a Santa Monica city-bound car some weeks ago. There was trouble in the home because the male guards insisted on not working more than eight hours a day. So this woman immediately volunteered to take the place of one of the work-by-the-clock men.

For some hours of the day she is the only guard on watch; only herself and her big swinging keys intervene between a prison full of husky big boys and liberty. At other hours, Mrs. Pratt, the matron, is the sole custodian.

Neither one has had the slightest trouble in controlling any of the boy prisoners. The boys treat them with every respect and seem to try to please both of these women.

It seems odd, however, when you ring the bell of the big, grim, cold-looking prison, to have it answered by the face of a woman at the bars.

Scene in a corner of the Morris Provision Company's plant showing piles of chile peppers and the pretty Spanish girls and other employees at work.

substitute for hamburger steak; "albondigas," which is a Chilean preparation, and "menudo," a Mexican dainty composed of tripe, corn, chile and the hoots of cattle. This is considered a great dainty.

"Everything here is clean and what we put up is the real thing," said Mr. Shogren yesterday. "But in the East I have made potted ham out of most everything there was."

Albert J. Morris, head of the company, says he is a phenix. He was proprietor of a \$400,000 packing plant in Kansas City, but was totally ruined by the flood there three years ago. Now he has come to Los Angeles after a two years' experience in Mexico and will introduce for the first time Mexican national food products in cans for the American public.

The outlook of green chiles for Southern California amounts to between 7500 and 10,000 tons a year. About 750 tons green are canned, about twenty tons are ground into pepper and the rest when evaporated makes about 600 tons of dried chile, of which there is a great chance in this country for ranchers to make a good profit in peppers and the prices will probably be steady. As Mr. Morris stated yesterday, "This coast presents a wonderful field for commercial enterprise."

SHIRINERS AT WHIST.

Visiting Club and Ladies' New Auxiliary Play Cards and Dine at Warming of Clubhouse.

One hundred visiting Shriners gathered at No. 123 South Figueroa street last night at a progressive whist party held under the auspices of the newly-organized Ladies' Auxiliary of the Visiting Shriners Club. The affair was the first of a series of bi-weekly entertainments the auxiliary has planned for the winter season, and also marked the entrance of the Shriners into their new home.

After the whist party an elaborate banquet was served in the dining-room of the clubhouse. The Shriners, appearing in full evening regalia—tuxedos, white waist, red satin tie, and scarlet fez.

The new quarters of the Visiting Shriners have been fitted in elaborate style. The hallways are hung with large numbers of pennants, representing all of the hundred or more temples of the national order, former devotees of which Shriners are now members of the club. The reception-room is handsomely furnished and the beautiful full of inlaid wood, presented several weeks ago by George H. Bailey of Yuma, and other valuable possessions of the order are to be seen there.

The house has been entirely remodelled to suit the purposes of the organization, and has a historical interest, being the home of the late H. H. Hoffman, who was the first Shriners lodge, situated originally at Fourth and Spring streets, and moved some years ago to the corner of Third and Spring streets, where it now stands.

A covered porch has been added, and an extension dance floor will be built soon in the rear, so that outdoor dances will become a feature of future entertainments.

WOMAN ON GUARD
HOLDS BACK BOYS.

NO YOUNG ruffian has had the courage to try to break jail since a woman with a glittering eye has taken the job and the keys of one of the men jail guards at the Juvenile Detention Home.

Her name is Mrs. A. Hyatt. She is said to be the best guard they ever had at that institution. Boys have organized conspiracies and broken away from most of the other guards. Mrs. Hyatt settles them with a look.

They have read dime novels enough to yearn to struggle with the bold and jaunty jailers as they do in the books; but the memories of mother's slipper and a prison full of husky big boys are usually too tender and too awful to risk tackling Mrs. Hyatt.

She has recently been appointed to take the place of Mrs. Cook, who was murdered by her husband on a Santa Monica city-bound car some weeks ago. There was trouble in the home because the male guards insisted on not working more than eight hours a day. So this woman immediately volunteered to take the place of one of the work-by-the-clock men.

For some hours of the day she is the only guard on watch; only herself and her big swinging keys intervene between a prison full of husky big boys and liberty. At other hours, Mrs. Pratt, the matron, is the sole custodian.

Neither one has had the slightest trouble in controlling any of the boy prisoners. The boys treat them with every respect and seem to try to please both of these women.

WOULD BUY CITY LANDS.

G. L. Dean, a rancher of the Owens River Valley, who has a tract of 320 acres near Independence, yesterday asked the Board of Public Works to sell to him a tract of 160 acres which the city owns in the valley. As this land was purchased simply to secure the water rights, the city at the present time has no use for it other than for this direct purpose. The proposition was referred to the City Attorney.

MERRY-GO-ROUND
STOPS UNMERRILY.

The adventures of the man who worked for charity at the Barlow fete and couldn't get over it.

WITH deep reproach they told Clark that he was working for art's sake; but Clark insisted on pinching the merry-go-round.

It is the same merry-go-round that was a star actor in the Barlow fete. Beautiful maids of society rode some of the horses.

Clark was a circus man. He went to work on the merry-go-round for sweet charity. When the fete was over he couldn't tear himself away. He kept on hanging around when they moved the merry-go-round.

They decided to start a side show called the "Mechanical Wonders of the Earth," which included the inner workings of a campaign orator's mind. Clark was the man that did the sign.

Clark groomed the horses, acted as special agent to help fat ladies to the hurricane deck of the champion steed, tinkered the machinery, and kept the babies from falling; Clark also helped the barker and wiped off the engine.

The proprietors of this merry-go-round decided that Los Angeles couldn't appreciate the real thing in art, and got ready to move to Anaheim.

Clark said his standing in the profession wouldn't admit of his playing a cold stare and said: "Money? What do you want with money? Look at all the fun you've been having."

The manager of the show gave him a cold stare and said: "Money? What do you want with money? Look at all the fun you've been having."

Clark straightway took the matter into court, where he yesterday confronted the men with the merry-go-round.

One of them took the stand and told the court all about it. He said his feelings were hurt by the conduct of Clark.

Clark said that he was working for art's sake; but Clark insisted on pinching the merry-go-round.

PEACE BROODS
AFTER JANGLE.Holley and Meyer Dicker
With Metals Company.General Securities Company
Not Now Fiscal Agent.But in Case of Standard
Mines, Fight Still On.

The hatchet has been buried and peace broods over the tangled affairs of the Tempered Ductile Metals Company and the General Securities Company. In the past few weeks criminal actions and recriminations have been hurled back and forth; the retort courteous gave place to the retort discourteous, and the counter-check quarrelsome came into prominent use. Suits followed—suits in law, also suits in equity in behalf of a group of stockholders in the metals company; and on behalf of J. E. Meyer and W. V. Holley, officers in both the companies, libel suits against some of the stockholders, with damages of \$200,000 asked.

Now a compromise has been arranged, and all the suits will be withdrawn. The two companies will go their separate ways henceforth, and all rancor and bitterness are officially in oblivion.

The metals company has a new directorate, and a new set of officers, in which the names of Holley and Meyer are absent, and in return an indebtedness has been assumed that is stated at about \$15,000. Also \$289 shares of stock held by Holley and Meyer, have been returned by them to the company.

Yesterday afternoon the details of the arrangement were gone over and the papers signed. Immediately thereafter a new board of directors was elected, the men chosen being Robert E. Paulsen, H. D. Schultz, C. F. Dawson, Herbert J. DuBois and John W. Kemp. Mr. Paulsen was also elected president of the Tempered Ductile Metals Company. Mr. Schultz secretary. Mr. Dawson, treasurer and Mr. Kemp vice-president.

NEW MEN IN CONTROL.

The new president, Mr. Paulsen, was the chairman of the stockholders' meetings and Mr. Schultz was secretary. Both were prominent leaders of the stockholders, and Mr. Kemp was the attorney having their interests in charge. Thus the control of the metals company has passed entirely into the hands of those who began and conducted the fight against Holley and Meyer.

The \$289 shares of stock that Holley and Meyer return were their property, and in addition to them, about \$200,000 more shares of treasury stock still unsold will revert to the metals company. The agreement between the metals company and the General Securities Company, whereby the latter acted as fiscal agent for the former has been rescinded, and a complete severance of all connection effected.

START OF TROUBLE.

The trouble that has been laid at rest started in the latter part of August, after many mutterings of discontent. The General Securities Company was acting as fiscal agent for the metals company, as it was for several other companies in which it was more or less interested. W. V. Holley was president and J. E. Meyer treasurer of the metals company, and at the same time Holley was president and Meyer secretary of the securities company.

In a suit filed August 25 on behalf of some stockholders, serious allegations were made against these officers, charging that they were using the securities company as a blind and attempting the ruin of the metals company for their own gain, and demanding the removal of the stockholders' committee of seven. This circular was made the basis of libel suits brought by Holley and Meyer, asking for damages of \$200,000.

During this time a compromise was arranged, and was apparently settled, when it fell through. The reason for this was stated in the Federal court, and there the matter rested until yesterday.

Work will start up in the factory of the metals company as soon as possible, according to the new president, Mr. Paulsen. The factory has been closed since the end of June, and was for a time under attack by Dr. Vaughn, inventor of the process and manager of the factory, has been telegraphed for, and will return to Los Angeles at once.

ONE CASE UNTANGLED.

While the relations between the Tempered Ductile Metals Company and the General Securities Company have been cleared up, the relations between the Standard Mines Company and the General Securities Company were at the same time rendered more involved, by the filing of four libel suits in the Superior Court yesterday through the firm of Keefe, Noyes & Bowers.

J. E. Meyer has filed two of them, one against Harry W. Brooker and one against R. G. Patterson. W. V. Holley has filed the other two, against the same persons. In all four suits of \$50,000 is asked as damages, making a total of \$200,000 demanded.

The basis of the suits is a suit filed by Mrs. Brooke and Mr. Patterson as stockholders in the Standard Mines Company, charging that Holley and Meyer had appropriated money of the company to their own use. This complaint, which is sworn to, is alleged to be libelous by Holley and Meyer, and consequently they have begun what they term "vindication" suits.

Mr. Meyer is the president of the mining company and treasurer of the securities company, and acts as fiscal agent for the mining company. Mr. Holley is secretary of the mining company, and president of the securities company. In this case, as in that of the Tempered Ductile Metals Company, of which Mr. Holley was until yesterday president, and Mr. Meyer secretary, it is charged by several of the stockholders that the securities company is used as a "blind" for the transfer of money into the pockets of Holley and Meyer.

Holley and Meyer also filed libel suits asking for more than \$200,000 damages against A. E. Wied a few days ago, in the same case.

"HOLY ROLLER" GONE CRAZY.

Henry Printes, a Holy Roller, insane from his "religion," was sent to the Receiving Hospital by patrolmen yesterday. He is a negro and has been prominent in the meetings on Asima street. He has been in the City Jail on a charge of wife beating. Yesterday Printes approached two officers on First street and began to "exhort" them. So peculiar was his manner and language that he was sent to the hospital, where he spoke "in tongues."

during the better portion of the afternoon and evening, varying this by "praying" on the floor.

School Children

TROLLEY SADDENS LITTLE BABY ECHO.

QUEST WILSON, Oct. 4.—The story of the trolley line that is coming to this camp from Mount Lowe has put out of joint the nerves of the baby burro, and the mother, who will not even smile for the camera. Hundreds of times has she moaned the trails bearing her

spread before the eye in tiers innumerable. Hundreds of mountain tops can be seen. The principal mountains of the Sierra Madre are spread in a half circle, and in the distance the range of the Sierra Nevada, 100 miles away, can be caught by the naked eye. The road is the stepping off place of the trail. From here there is a drop of 2000 feet of perpendicular

of tenderfoot to Echo Park, this, her youngest son, was and she had looked forward to a life of usefulness on the rim and other byways of the mountain. The Cold Water Falls is fed from a spring that comes from the snows on the top of the mountain. In the warmest weather its temperature never changes. It is within a mile of the top of the mountain, and the biggest tumble is made from between massive boulders beside which a man is like a pigmy. Enthusiasts claim that one of the grandest views in the world will be furnished by the "rim trail" already surveyed by the Mount Wilson Trolley Road Company, which will wind four miles around the horseshoe edge of the mountain. The cross line from Mount Lowe will probably cover a portion of this, as it approaches the present camp, as it is the most feasible route.

lar and slope. Looking downward in Los Angeles, and in the distance California. The Cold Water Falls is fed from a spring that comes from the snows on the top of the mountain. In the warmest weather its temperature never changes. It is within a mile of the top of the mountain, and the biggest tumble is made from between massive boulders beside which a man is like a pigmy. Enthusiasts claim that one of the grandest views in the world will be furnished by the "rim trail" already surveyed by the Mount Wilson Trolley Road Company, which will wind four miles around the horseshoe edge of the mountain. The cross line from Mount Lowe will probably cover a portion of this, as it approaches the present camp, as it is the most feasible route.

STRANGE CHANGE IN HIS PROFITS.
Pierce Says He Would Give Back Money He Got from Interest in Business. He Has Color of Fraud.
When he went to see him, they claim, he told them his real estate and brokerage business was paying him about \$700 a month. He offered to let them have a fourth interest in the exceedingly moderate sum of \$250. Brown must be a very credulous individual. He believed the story and paid the money. He claims that during the succeeding month, while he was a partner, the profits of the firm were nothing. He demanded his money back, and, not getting it, brought suit in the Justice Court. When he took the witness stand Shurger airily explained that he had not cheated him. He really couldn't exactly explain why his profits had so suddenly slumped off, nor why they suddenly grew again, for he swore that since the Browns had left his profits for the month had been \$350. He gave a long, entertaining story, something about a man named Brad-

All That is Swell in Fall Clothes For the Big Boys and Juveniles

Dressing the big boy is oftentimes a problem--unless you bring him here for his clothes. We have the clothes problem for this fall and winter settled for every boy and youth in and about Los Angeles.

We're showing the biggest stock of the handsomest styles and fabrics ever before displayed in this town. There's good tough wearing qualities in every suit as well as beauty, and it makes the young fellow feel as big as his father when he puts on a Harris & Frank suit.

Sailor Suits, Norfoks, Russian Blouses
And suits for boys of all ages for school and dress. One of our strong points is—moderate prices.

What We Sell for Boys

Boy's Sweaters
Boy's Worsted Jackets
Boy's Neckwear
Boy's Collars and Cuffs
Boy's Sleeping Garments
Boy's Underwaists
Boy's Night Robes and Pajamas
Boy's Gloves

Boy's Bath Robes
Boy's Overcoats
Boy's Rain Coats
Boy's Shirts
Boy's Waistcoats
Boy's Hosiery
Boy's Underwear
Boy's Hats and Caps

For Girls
We carry a large line of Girls' Reefers and Coats in very swell girlish styles. These are all tailor made and priced at money saving prices.

ROBBED ON THE PLAZA.

Two Highwaymen Lately Operating on Dark Streets Suspected of Striking Down Ybarra Nava.

Ybarra Nava was knocked down and robbed on the Plaza, Wednesday night, he says, by two men. The police believe his assailants are the pair who have committed on dark streets a number of similar crimes during recent weeks. Nava lost several dollars, and wandered about the city, dazed and bleeding, until yesterday morning, when a patrolman found him and sent him to the Receiving Hospital. He was given surgical attention for a number of ugly cuts on the head. In the wholesale district and in the territory east of Los Angeles street and west of the river two thugs have been working for some time past, following drunken men from saloons and beating them down in dark spots, then robbing them. The operations of these men have given the police no little trouble.

SEVENTEENTH STREET OPENING.
All property owners on Seventeenth street between Vermont and Figueroa streets, who are opposed to the proposed opening are requested to meet at Paul's Hall, 1254 West Washington street, Friday evening, October 5, at 8 p.m.

One top of watermelon given away at Del Rey Sunday. Boat racing.

Make a Make

TO CHECK OPIUM TRADE.
Proposals of Chinese Ministers May Be Adopted—Would Finally Stop Cultivation.

[BY THE ASSOCIATED PRESS.—A.M.]
LONDON, Oct. 4.—The Chinese Minister at London sent an exhaustive dispatch to Peking last July, advocating the abolition of the opium trade, and his proposals to this end may be taken as an indication of the shape to be given the regulations to enforce the recent governmental edict against the traffic. The minister counseled the gradual diminution of the cultivation of the poppy by a system of registration and licensing, under which native cultivators would reduce yearly the area under cultivation until the industry ceased entirely. He further urged a system of permits to aged opium smokers, the limiting and gradual reduction in the consumption of the drug, the prohibition of smoking to the young, the closing of opium dens and shops, the concentration of the trade in the hands of a single company recognized by the government, whose

shareholders shall be the chief drug merchants of the larger towns, and that this company's license be renewed yearly and its capital reduced 10 per cent. a year, in order to insure a corresponding reduction in cultivation. The importation of opium from India is to be limited to meet any deficiency in the supply. Provision is to be made in the government workshop for the care of all those suffering physically or mentally as a result of their endeavors to forsake the opium habit, while those declining to abandon smoking after the prohibition comes into force are to be forbidden from taking any office under the government or in any governmental institution.

For Sallow Skin, Liver Beans.
Clear the complexion and give health.
Train Time Changes—Salt Lake Route.
On and after Sunday, October 7, train for San Bernardino will leave Los Angeles at 2:40 p.m. instead of 2:50. No other changes exist. Trains for Long Beach and San Pedro will leave at 5:40 a.m. week days, 5:50 a.m. and 4:30 p.m. daily and 1:30 p.m. Sundays only. Leave East San Pedro, 7:30 a.m. and 1:15 p.m. week days, 5:40 p.m. daily and 10:10 a.m. and 3:25 p.m. Sundays only. New time cards may be had at 604 South Spring street and First Street Station.

War ON War Dental Prices For 15 Days Only

Full set teeth, \$1 guaranteed, others charge \$5 to \$10.
Gold crowns reinforced, others charge \$5 up for \$10.
Bridge work that others get \$5 to \$10 for \$15.

SMILES AND ILLS PAY THEIR BILLS.

BROOKLYN TWINS NURSING WAY ROUND WORLD HERE.

Girls on Unique Voyage Find Every One in Los Angeles So Healthy They Can Get No Professional Work—Contracts to Get Sick Insure Seeing Foreign Parts.

The Gerhart sisters of Brooklyn, in their staid of nursing their way around the world, have reached Los Angeles, and are bewailing the fact that every one is so healthy here that they can get nothing to do in their chosen profession.

They are twins, these irresistibly jolly young women, who have set out to see the big, round world and, incidentally, make their way and pay the expenses of the trip while they do so. They have an infectious smile, or, more properly, a pair of them, which ought to be sufficient to win their way for them and to get them out of all kinds of difficulties in foreign lands.

Although they did not intend originally to do any nursing before reaching Honolulu, they found the need of their services so great in the several cities where they stopped while on their way across the continent that they have put in several months very profitably since leaving home, at St. Paul and Seattle. They could hardly get away from Seattle to fill their engagements in Honolulu, and when they did leave it was only to find that their sailing from San Francisco was indefinitely postponed on account of the accident to the Manchuria on which they had booked passage.

The sisters only laughed at this piece of misfortune, and promptly made arrangements for berths on the Mongolia, and optimistic as they are, were almost persuaded that they were hoodwinked, when they learned a few days later of the disaster which befell that steamer. They then put in a request for berths on the Nippon Maru, but found that everything had been sold out, so they will be compelled to remain in Los Angeles some little time longer.

These two energetic young women have mapped out a pretentious world tour, one which will take them through Honolulu to Yokohama, thence by rail to Kobe and Nagasaki, and by steamer again to Shanghai and Hongkong, then to Manila and southward again, touching at the coast cities of India and other Asiatic ports, stopping off in the Mediterranean, and by way of Spain and Portugal on train through to France.

They don't care how long it takes or when they get back. If they remain away three or four years, it is all the same to them, they say. With a rare provident sense, they have secured the names of all the most reputable practicing physicians in the ports where they will visit, and have advised them of their coming, and of their desire to remain from one to six months or a year, lending their services as graduate nurses the while.

The Misses Gerhart have already secured engagements in their work in Honolulu when they arrive. It is the acme of obligingness they think when people will agree several months in advance to become ill.

SWEET SINGER HERE.

Miss Ina Coolbrith Confined by Cold in Home of Friends Here—Lost Treasures.

Ina Coolbrith, pronounced by critics the country over one of the sweetest singers of the West, is a visitor in Los Angeles. Miss Coolbrith is at the home of Mr. and Mrs. W. H. Perry, No. 26 St. James Park, and since coming South about a week ago she has been confined to the house with a severe cold. Miss Coolbrith is a native of San Francisco, where she was born in 1858. She was for many years librarian of the Oakland Library, and for two years she was head of the oldest library in the State, the first San Francisco library, which was especially rich in early California historical data. At the time of the disaster she was in charge of the Bohemian Club library, where she had been located for six years. Her home was on the highest point of Russian Hill, and she had no thought of the conflagration reaching her home until it was too late to save any of her books, manuscripts or letters. Among the most valuable of her losses was the valuable autograph library which had been contributed to through the years past by many of the best known writers of the day. Many of these volumes were valued greatly for their associations, as were naturally the large number of letters which she also owned and which bore the signatures of illustrious names in all lines of work. Many of these were signed by hands long since stilled by death.

Miss Coolbrith is the author of two collected volumes of verse, as well as many uncollected poems. Her books are entitled "A Perfect Day, and Other Poems" and "Songs from the Golden Gate." She has contributed to nearly all of the well-known magazines of the East and West, and was about to publish a new collection of poems when the manuscript was burned along with the rest of a volume of lighter verse in which she excelled, though her reputation has not been gained in this branch of verse writing. She also was preparing a historical work, which was to have been compiled chiefly from valuable old documents relating to early California history, documents which were in the possession of her step-father since the pioneer days by the Golden Gate. This, too, was consumed.

Miss Coolbrith has not recovered from the shock she sustained last April, but speaks courageously and hopefully of the future of San Francisco. While wiping tears from her eyes, she characterizes the attitude of the northern people as "heroic beyond anything to be conceived of, a spirit of which the pioneers should be proud."

Miss Coolbrith came South on an errand of combined business and pleasure, and will return to San Francisco within a few days. She will take up literary work again, but definite plans she has not yet formed.

STUDENTS ELECT OFFICERS.

The student body of the University of Southern California, College of Liberal Arts, held its election of annual officers yesterday noon. There was much interest, the chapel being crowded. A number of friendly rivals vied for honors in securing the offices. The following are the officers chosen: Oliver Best, president; Paul Fletcher, '19, vice-president; Ralph Clarke, '20, secretary; Charles Hargis, '20, sergeant-at-arms; E. Garcia, '27, yell leader.

The fact that a member of the freshman class secured the vice-presidency was the only remarkable feature of the election. Fletcher's election was because the freshman class is larger than ever before. He is a graduate of the Los Angeles High School.

If You Want to Go East, C. Haydock, Agent Illinois Central R.R., 118 W. Sixth.

Ridgway's

WE ARE about to publish a new weekly. A magazine so different in purpose and scope and usefulness that people will wonder why it was not published long ago. It seems to us that this great country of ours with all its forcefulness and enterprise can afford to be constantly in touch with itself. We believe that we have discovered a way by which we can give the people something that they very much want and something that they now have no other way of getting.

The unique feature of Ridgway's is that it will be published from fourteen cities simultaneously every Saturday morning. How are we going to do it? Well, here is our plan, and we think it will look as good to you as it does to us. We shall maintain a complete organization in each of the following centers where Ridgway's is published: New York, Chicago, Philadelphia, Boston, San Francisco, Washington, New Orleans, Seattle, Atlanta, Denver, Cleveland, St. Louis, Pittsburgh, St. Paul and Minneapolis. In each of the fourteen cities there will be a managing editor, with associate editors, correspondents, special contributors, artists, advertising and circulation managers. We intend with the aid of our editors all over the country to get to the scene of every important event at the earliest moment after it has happened. At midnight of the day preceding publication each of the local editors will wire to New York a brief editorial story of the events of his section, that he believes will be of interest to the rest of the country. In New York, editorial writers with Samuel Hopkins Adams in charge, will go over these stories, shape them up, being careful not to destroy the local color, and wire three or four pages of finished editorials back to each branch, thus the whole country will contribute to the national editorials. A few hours later Ridgway's will be on the presses in fourteen cities being printed at newspaper speed.

The local news and editorials will be treated just as thoroughly by the local editor for his own section. We have secured the best man obtainable in his district, one who can reflect the life of his section, in Business, Politics, Sports, Finance, Society and Education, week in and out. There will be nothing but clean, crisp, up-to-date news that will keep wide-awake readers alive to the big events that are happening around them.

What about stories and illustrations and general articles? We shall have plenty of them. The best we can buy. We believe in humor and every form of wholesome amusement. Nothing will be left undone to make these features a great success with our readers. We shall seek contributors everywhere. Ridgway's will undoubtedly make a great many literary reputations, just as Everybody's did. We are already able to announce a great serial story by Joseph Conrad, to be called "The Secret Agent." It will begin in the first issue. Mr. Conrad has written sea stories that have made him famous. In the Secret Agent he has entered a new field. It is a story of European Diplomacy. The scene is laid in London, well-known as an asylum for European Anarchists. A story of this kind is necessarily full of action and fascination. The Secret Agent is especially so.

Gelett Burgess will conduct a department of humor, consisting of at least four pages each issue, fully illustrated. It will be kept up-to-date. When you see the first number you will appreciate how good this department is. Mr. Burgess will have the aid of the best artists and illustrators at home and abroad. Another feature of the illustrations will be a sixteen-page section printed in half-tone on calendered paper, depicting important happenings, local and national. There will be weekly full-page cartoons, true to the topic and the times.

Here are some of the contributors who are now at work for us:

Emerson Hough	Winston Churchill
Broughton Brandenberg	Agnes Laut
Ernest Pool	Eleanor Hoyt Brainerd
Harvey J. O'Higgins	Jacques Futrelle
Franklin Matthews	Dr. Henry C. Rowland
Samuel Blythe	George W. Ogden
Ralph D. Paine	Lucia Chamberlin
Charlotte Perkins Gilman	

One of the greatest features of Ridgway's will be the Washington Bureau, under the direction of Martin Egan. We propose to tell you in an interesting way, every week, just what each department of the national government is doing in your service. Mr. Egan will have a staff of twelve associate editors in order to cover every department of the government. There will be special representatives for the Senate, the House and the Diplomatic Service. This Washington Bureau will make us better Americans. We are all interested in our great big government, yet, how much do we know about it?

What will be the policy of Ridgway's?—principally to tell the truth and make the truth interesting. We shall not try to run down or over anybody. We shall stand squarely on the platform, a militant weekly for God and Country. If we feel that any individual in the public eye is not getting a square deal, we may think it wise to give him an opportunity to tell his own story. What we want is facts; facts that are fresh in the making. If we give things as we find them, the average American citizen can be trusted to reach a very definite conclusion by the shortest possible route.

Ridgway's will be on sale everywhere tomorrow morning. It will be a 64-page weekly, and will be sold at 10c a copy or \$5.00 a year. We advise you to get your order in early because advance orders indicate a big demand, and we shall not print beyond immediate requirements. You can buy Ridgway's in the same way as your newspaper or magazine. It will be sold by the newsdealer and the newsboy, on the stand or in the street.

EVENTS

CUPID has been playing loose in Masonic circles, usually in Southern California. No. 273, F. and A. M. have been most noticeable.

Just now the news has come of the marriage of George Irwin, who is the worshipful master of Southern California Lodge, Marie Merietta Gephart. The wedding took place on Wednesday at the Presbyterian Church, Ana. Rev. J. Stevenson officiated. C. McConas stood with the best man, and Mrs. H. B. of San Francisco was matron. The many friends of the couple were surprised to learn of the

MRS. L. is home, and preparing

which was so quietly and accounted as to give the slip to the nuptials. The bride is a daughter of Mr. Gephart. They formerly lived in San Francisco and are now in the city. After the wedding Mrs. Gephart entertained the small party at the home of the bride. The bride's father, Mr. Gephart, is a member of the Masonic circles, and is a member of the Jonathan Club. He is a member of the Masonic circles, and is a member of the Jonathan Club. He is a member of the Masonic circles, and is a member of the Jonathan Club.

Another interesting bit of news is the coming of a new bride to the city. The bride is a daughter of Mr. Gephart. They formerly lived in San Francisco and are now in the city. After the wedding Mrs. Gephart entertained the small party at the home of the bride. The bride's father, Mr. Gephart, is a member of the Masonic circles, and is a member of the Jonathan Club. He is a member of the Masonic circles, and is a member of the Jonathan Club.

Next Wednesday Harbor is the junior warden of this lodge. He is to be married to a daughter of Mr. Gephart. They formerly lived in San Francisco and are now in the city. After the wedding Mrs. Gephart entertained the small party at the home of the bride. The bride's father, Mr. Gephart, is a member of the Masonic circles, and is a member of the Jonathan Club. He is a member of the Masonic circles, and is a member of the Jonathan Club.

Miss Kennard Engaged. Fraught with much interest and older friends, too, is the engagement of Miss Kennard to Louis P. Russell, the son of the late Mr. Kennard. The wedding will take place on Wednesday at the home of the bride. The bride's father, Mr. Kennard, is a member of the Masonic circles, and is a member of the Jonathan Club. He is a member of the Masonic circles, and is a member of the Jonathan Club.

Miss Josephine Hanagan, daughter of the late Mr. Hanagan, is the guest of the late Mr. Hanagan. She is a member of the Masonic circles, and is a member of the Jonathan Club. He is a member of the Masonic circles, and is a member of the Jonathan Club.

Miss Gifford a Bride. Last evening at 8 o'clock, Miss Gifford was married to Mr. Gifford. The wedding took place at the home of the bride. The bride's father, Mr. Gifford, is a member of the Masonic circles, and is a member of the Jonathan Club. He is a member of the Masonic circles, and is a member of the Jonathan Club.

FRIDAY, OCTOBER 5, 1906.

Los Angeles Daily Times.

EVENTS IN LOCAL SOCIETY.

CUPID has been playing fast and loose in Masonic circles and especially in Southern California Lodge No. 278, F. and A. M., have his pranks been most noticeable.

Just now the news has crept out of the marriage of George Irwin Kite, who is the worshipful master of the Southern California Lodge, to Miss Marie Merrietta Gephart. The wedding took place on Wednesday noon at the Presbyterian Church in Santa Ana, Rev. J. Stevenson officiating. F. C. McCombs stood with the groom as best man, and Mrs. H. B. Sinclair of San Francisco was matron of honor. The many friends of the couple will be surprised to learn of the marriage.

ton Merwin were married, with Rev. H. W. Crabbe officiating. The bride is a daughter of Mr. and Mrs. Robert L. Gifford of No. 749 Lake street and was attired in a lovely gown of white silk and lace and carried bride roses, and a long tulle veil held in place with orange blossoms was also a part of the costume. Misses Edith McGarry and Edith Robinson were maids and they wore white silk and carried white carnations and ferns. Little Fern Robey was ring bearer and wore white silk and carried the ring in a rose. Arthur Gifford, brother of the bride, was best man, and music for the service was rendered by Miss Nettie Gifford, who played Mendelssohn's wedding march, "O Promise Me," and the love song from "Mispah." The church was

MISS VERA ALLEN, whose engagement to Hugo Burgwald is announced today.

women of the Central Baptist Church met recently with Mrs. Porter at Hemmossa Beach. A dainty luncheon was served in the small pavilion, which was transformed into a veritable deep-sea bower by the use of kelp and other sea vegetation. The marine idea was carried out in the favors and in the table decorations, blended with carnations and ferns. Ice cream was served in large clam shells. Mrs. Porter was assisted by Mrs. Alex. Whitehead.

On the Way Home.

Mr. and Mrs. Milo M. Potter and their daughter, Miss Nina Jones, who have been enjoying an eastern trip for the past two months, are on their way home and will arrive here about October 15. They have been visiting all the cities of prominence and summered at the large watering places.

Army Lady's Club.

Mrs. C. C. De Rudio of No. 1034 South Figueroa street entertained delightfully yesterday afternoon, having as guests members of the Army Ladies' Euchre Club, to which she belongs. Pretty prizes were awarded, the first falling to Miss Anita Taylor, the second to Mrs. Sanborn and the third to Miss Grace Sanborn. Later dainty refreshments were served by the hostess and a social hour enjoyed.

Mrs. Bernard Entertains.

Mrs. S. M. Bernard of No. 345 Lake street was hostess yesterday, entertaining a few of her friends in an informal manner. Dainty refreshments were served late in the afternoon.

Hanniman-Carroll Nuptials.

At the home of Mr. and Mrs. H. Schryer of No. 614 Gladys avenue last evening took place the wedding of Miss Fannie H. Hanniman and Frank D. Carroll, Rev. F. Coulter of the Broadway Christian Church officiating. Mrs. Albert Manning played the wedding music and Miss Agnes Carroll was maid of honor and wore a dainty gown of white mull. J. G. Hanniman stood with the groom. Little Vera Pinkham of San Dimas was flower girl. The bride wore cream voile over tulle and carried a bouquet of white carnations and maidenhair ferns. White flowers and ferns decorated the home attractively. Mr. and Mrs. Carroll have gone to San Diego for a week and after that will be at home at No. 443 Austin street.

Mrs. Kinkaid's Affair.

Mrs. Mary Holland Kinkaid of No. 4445 Marmion Way will entertain members of the Woman's Press Club and their friends on Sunday afternoon from 2 until 5 o'clock with an informal reunion.

Delta Phi Sigma.

Miss Edith Bailey of No. 1021 West Sixth street will entertain next week at a luncheon in honor of the Delta Phi Sigma Sorority of which she is a member. Miss Mildred Neiswander will assist Miss Bailey, as she is to be one of the new members.

Notes and Personal.

Mr. and Mrs. Fred Zucker returned yesterday from a pleasant trip through the East and Canada. Rev. J. S. Thomson and Mrs. Thomson have returned from their trip East and are now living at Hotel Westmore.

Through misunderstanding it was stated yesterday that Miss Carolyn Patch, sister of Mrs. George Barnes, had died. It is a married sister, whose death occurred recently and Miss Patch is well and enjoying herself in Paris. Hon. Charles O. Morgan and family are settled in their new home, corner Virginia street and Santa Clara avenue, South, East Hollywood, and will be at home to their friends on the first and third Fridays, afternoon and evening. The Philoethea Club have issued invitations for a dance at Kramer's Hall on Friday evening, October 12.

artistically decorated. Over the platform a canopy of anemone ferns and lover's knots of white satin ribbon was arranged and snowy doves and tulle bows completed the pretty effect. At the home of the bride's parents, where a supper was served, white flowers and greenery were combined with attractive results. After a week's visit in San Diego, Mr. and Mrs. Merwin will be at home to their friends at No. 631 East Thirty-sixth street.

Mrs. Kempton's Birthday.

Mrs. Jennie T. Kempton was the honored guest at a jolly Italian dinner party given last evening by her son-in-law and daughter, Mr. and Mrs. Roth Hamilton of No. 1523 South Union avenue, in celebration of Mrs. Kempton's sixty-sixth birthday anniversary. Red, white and green, the Italian colors were carried out in the decorative scheme and also in the menu. Red carnations decked the table and covers were marked with cards adorned with sketches of Italian cities. A large birthday cake ornamented

with gold frosting, red candles and bearing the date 1840 and 1906 also had a place on the table. After dinner prize games were played. Those who were invited included, Mr. and Mrs. Harry Clifford Lott, Mr. and Mrs. Lewis Clark Carlisle, Adolph Wilharts, Tom Carl and Eugene Dewey.

Kennard Engaged.

Brought with much interest to young and older friends, too, is the news of the engagement of Miss Nellie Kennard to Louis P. Russell, the announcement being made by the bride-elect's parents, Prof. and Mrs. W. J. Kennard of No. 416 West Thirty-seventh street. Miss Kennard is the eldest daughter of Prof. and Mrs. Kennard, a charming and accomplished girl, who is loved. Her father is vice-president of the Los Angeles Business College. The wedding will not take place until the latter part of December and the meantime the many friends of the couple will give numerous pleasant hours for them.

Managan Here.

Miss Josephine Managan, an Oakland belle, is the guest of Miss Brent Adams of Alhambra. Miss Managan spent part of her time as the guest of Miss Katherine Mellus of Adams street and will probably remain here until the end of November.

Gifford a Bride.

On evening at 8 o'clock in the Presbyterian chapel, corner of Adams and Main streets, Miss Nettie Gifford and Hugo Burgwald were married.

Green Class Entertained.

444 South Main street, a young married

Miss Nellie Kennard and Louis P. Russell.

Fifth Day of Our First Birthday Sale

1905

WEDS. ST. LOUIS GIRL.

Charles O. Barker of Banning and Miss Buelah Roth Principals in Quiet Society Wedding.

(BY DIRECT WIRE TO THE TIMES.) ST. LOUIS, Oct. 4.—(Exclusive Dispatch.) A quiet society wedding to-night was that of Charles Omar Barker of Banning, Cal., former member of the California Legislature, to Miss Buelah Roth, youngest daughter of the late Adam Roth of the Adam Roth Grocery Company, St. Louis, wholesaler.

The scene of the wedding was the old Roth residence on Locust street. Rev. Dr. Nicola, pastor of the Second Presbyterian Church, officiated. The bride was attended by her sister, Kate, as maid of honor; also by Miss Sarah George of Wellsburg, W. Va., the bride's schoolmate at National Park Seminary near Washington, and by three little nieces of the bride—Margaret, Anna and Eleanor Roth—as flower girls. The groom's attendant was George N. Pearson of Riverside, Cal.

Mr. and Mrs. Barker left tonight for New York. They will reside at Banning.

Gray Hair Quickly Restored so its natural color by using Alfredus's Egyptian Henna. Pure, harmless, 1st-class druggists.

Have You Seen the MARIE ANTOINETTE?

The Marie Antoinette curls produce the puffed effect now in vogue in Paris, the most charming and softening hair dressing seen in France. Having just returned from Paris, we can tell you about this attractive style, so necessary to make your winter hats becoming.

WEAVER-JACKSON HAIR CO.

448 So. Broadway

Do you know what a "lard stomach" is?

Indigestion promptly follows the use of lard as lard is made from hog-fat, and is greasy and indigestible. Some future day, when people are wiser and healthier, lard, for edible purposes, will be scarcely used; but, until then, we suppose people will continue to suffer from "lard stomachs."

The most perfect shortening in the world is **Cottolene**. It is a pure vegetable product, containing only pure, refined cotton seed oil and choice selected beef tallow. It will make your food palatable, digestible, nourishing and healthful, which is more than any one can truthfully say of lard.

Cottolene is a clean product. Only the most modern and hygienic methods are employed in its manufacture. Its purity is your surety. The quality of **Cottolene** is always uniform and dependable.

Every good grocer sells **Cottolene**; and those who use it themselves, recommend it. It comes only in sealed, white pails, with a red label and band. In the center of the label is our trade mark—a steer's head in a cotton plant wreath. Do not accept a substitute. **Cottolene** is the original and only improvement upon lard as a shortening. It has no satisfactory substitute—except on paper.

Use one-third less. **Cottolene**, being richer than lard or cooking butter, one-third less is required. It is, therefore, economical.

COTTOLENE was granted a **GRAND PRIZE** (highest possible award) over all other cooking fats at the recent Louisiana Purchase Exposition, and food cooked with **COTTOLENE** another **GRAND PRIZE**.

"Home Help" a book of 300 choice recipes, edited by Mrs. Rorer, is yours for a 2 cent stamp, if you address The N. K. Fairbank Company, Chicago.

A NEW FEATURE—The patent air-tight top on this pail is for the purpose of keeping **COTTOLENE** clean, fresh and wholesome; it also prevents it from absorbing all disagreeable odors of the grocery, such as fish, oil, etc.

Nature's Gift from the Sunny South

"South of the Tehacapi"—Neighboring Counties.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

GOOD LUCK, CALIFORNIA!

Cruiser Will Be Given Trial Tomorrow.

She awaits her coming in Santa Barbara Channel.

...to Be One of Best Fighting Ships Afloat.

...BARBARA, Oct. 4.—(Exclusive Dispatch.) The new 14,000-ton cruiser California, which was completed at the Union Iron Works in San Francisco, will arrive in Santa Barbara Channel about 9 o'clock tomorrow morning, where her builders will demonstrate to the satisfaction of the officers of the Pacific fleet that she is all that the specifications require.

It is probable that standardization of the measured mile course will be held on Saturday and that the endurance run will be held on Sunday.

The ship Chicago, with Admiral Schuyler, the cruiser Princeton and the torpedo boat destroyers Preble and Thetis are now here for the trial of the fleet. The fleet will probably hold torpedo target practice in the channel. The Preble will run this morning, the Thetis tomorrow, making a record at 1000 yards with the torpedoes.

The board for the test of the fleet is composed of the following: Capt. D. S. Miles, U.S.N., president; Commander J. H. Dyer, U.S.N., vice president; Commander J. W. Smith, U.S.N., secretary; and Commander J. W. Smith, U.S.N., secretary.

The board will consist of the following: Capt. D. S. Miles, U.S.N., president; Commander J. H. Dyer, U.S.N., vice president; Commander J. W. Smith, U.S.N., secretary; and Commander J. W. Smith, U.S.N., secretary.

The board will consist of the following: Capt. D. S. Miles, U.S.N., president; Commander J. H. Dyer, U.S.N., vice president; Commander J. W. Smith, U.S.N., secretary; and Commander J. W. Smith, U.S.N., secretary.

Men!

I Have But One

Kind of treatment to offer you, and that is the right treatment for your particular condition. MY WAY is thorough and searching, and is given only in MY OFFICE. Training and experience of the right kind count for much—this is especially true in the intricate and complicated conditions peculiar to MEN.

Varicocele

My treatment is thorough and cures in 4 to 6 days, and there is no relapse of the old weakness that accompanies the disease.

Stricture

I cure the right way once and for all. I remove all urethral obstruction, inflammation and soreness, and restore the membrane to a healthy condition, usually 10 to 15 days.

Contracted Diseases

Failure to cure quickly these conditions is due to harsh measures, which are the direct cause for chronic conditions. My treatment is the most cleanly and perfect.

I cure Rectal, Kidney and Bladder Trouble, Piles, Fistula and Blood Diseases, Wasting, Nervous and Chronic conditions, causing functional derangement, impairing strength, and vitality.

DR. MORTON

316 South Broadway Hours: 9-4, 7-8 Sunday, 9-12

Men!

DR. TAYLOR,
The Leading Specialist

MODERN MEDICAL PRACTICE demands more than a knowledge of anatomy, diseases and drugs. As the science of curing broadens the greater grows the task of knowing the cause of the disease. The scientific application of natural forces has brought almost any ailment to medicine, and calls for delicate and costly equipment as well as utmost skill.

My office and hospital are sixty rooms and my equipment for the treatment of men's diseases is the most complete in the entire West. I lack nothing that can possibly help in diagnosing or treating. Everything from the simplest to the most difficult, complicated and costly electrical apparatus is here to aid me in reaching to my patients a service such as no other physician has yet been able to give.

You Do Not Pay For Failures

BUT FOR CURES

My acceptance of a case is equivalent to a cure. I never accept incurable cases. I have cured many cases of men's diseases. I have cured many cases of men's diseases. I have cured many cases of men's diseases.

First Cure You

Then You Pay Me

Your case is urgent—I am willing to wait until you are cured for the few dollars I charge for my services. I am willing to do this if my cures were slow or doubtful.

Let This Advertisement Be Your Guide

It has been my message to thousands. It has been their first step toward health—it is my message to you.

The Only Diseases I Treat—

Not only varicocele, stricture, rupture, piles, hydrocele, organic weakness, contagious blood diseases, acute and chronic urethral and prostatic inflammation.

GLAD WELCOMES FOR MERCHANTS.

SAN DIEGANS ARE ARRANGING TO RECEIVE ANGELENO.

Chamber of Commerce of Southern California intends to give visitors a Rousing Good Time—Timber Cutters of New River and Pelican Lake in Trouble With Uncle Sam.

(BY DIRECT WIRE TO THE TIMES.)

SAN DIEGO, Oct. 4.—(Exclusive Dispatch.) Elaborate plans are being made to show the members of the Los Angeles Chamber of Commerce a rousing good time when they arrive in this city Saturday. A committee of the Chamber of Commerce of San Diego will meet the excursion train at Oceanside.

A band will be in waiting at the depot in this city, as well as a big delegation of citizens and lunch will be served the visitors on the Santa Fe wharf as soon as they can reach the water front after leaving the train. Later seven of the largest launches on the bay will be placed at the disposal of the visitors, and trips to the entrance of the harbor and other points of interest will be made.

In the afternoon, after the launch returns to the city, members of the Entertainment Committee of the local Chamber of Commerce will take charge of the visitors and conduct them about the city, the trips including many local points of interest.

AFTER TIMBER CUTTERS.

Some years ago several parties made a practice of cutting the mesquite timber that grew along New River and in the flats of Pelican Lake, and selling it at Imperial. In this way a quarrel was started with the city of San Diego, who have been working to clear the river of this timber. The city has been working to clear the river of this timber. The city has been working to clear the river of this timber.

LA JOLLA VS. DEL MAR.

A company with large property holdings at Del Mar is making a strong bid for the biological station which it is proposed to erect at La Jolla. The station is willing to accept La Jolla Park as a site provided the land is deeded to the station and the city agrees to place in the outfall sewer.

While the Park Commission is hesitating about the matter, Del Mar is coming forward with a plan which includes forty acres of land, free electricity, fresh water and septic tanks. The Del Mar company also agrees to build and maintain a suitable aquarium and furnish a \$10,000 gasoline launch. An electric line between San Diego and Del Mar, as well as extra train service on the Santa Fe, are also promised.

SAN DIEGO BRIEFS.

Edward M. Koch, former agent for the Union Ice Company here, has been arrested for the fourth time on a charge of embezzlement alleged to have been committed last May. Koch admitted the misappropriation of \$78 from St. Joseph's Hospital, according to the statement of a San Francisco lawyer who arrested him at El Paso, whether he had fled.

Completed registration total for the county is 10,882. This is considerably lower than at first estimated, it being thought that over 11,000 registrations would be received. A considerable growth in the city itself is somewhat offset by a decrease in the remote voting districts.

A road has been secured for the new army which is to house the Naval Reserves and Co. B. Seventh Regiment, N.G.C. This is 100 acres, at the corner of Thirtieth and the streets, and the building, which will be one story, is to cost \$100,000.

A Broadway stock shoes thrown on L. A. market Saturday. Look for bargains tomorrow.

RIVERSIDE FAMILY REUNION.

Sons and Daughters of Mr. and Mrs. George H. Dole Gather Under the Home Roof.

RIVERSIDE, Oct. 4.—A notable reunion took place in the family of Mr. and Mrs. George H. Dole yesterday at the old home place on Arlington avenue. The family has never before been gathered under the home roof since the death of Mrs. Dole, who died in 1898. It is a family after President Roosevelt's own heart, consisting of ten boys, all husky, athletic fellows, and three girls.

George H. Dole, the father, is the brother of former President Dole of the Hawaiian Islands who has taken a lively interest in the careers of the younger generation of Doles. Before settling down to his profession, nearly every one of the elder boys made a name for himself in the world of sport. Two world's championships have been captured in the polo vault. At Stanford Charles S. Dole broke the world's record and later his younger brother, Norman E. Dole, made a new record. Several of the boys have been known in the football field, and the second oldest boy, Walter Dole, belonged to one of the first all-American football teams.

One of the children came from Honolulu for the reunion, one from Portland, one from Washington, two from New York, one from Stanford, one from Boston, a daughter from Alameda, and a son from San Francisco.

DR. TAYLOR,
The Leading Specialist

MODERN MEDICAL PRACTICE demands more than a knowledge of anatomy, diseases and drugs. As the science of curing broadens the greater grows the task of knowing the cause of the disease. The scientific application of natural forces has brought almost any ailment to medicine, and calls for delicate and costly equipment as well as utmost skill.

My office and hospital are sixty rooms and my equipment for the treatment of men's diseases is the most complete in the entire West. I lack nothing that can possibly help in diagnosing or treating. Everything from the simplest to the most difficult, complicated and costly electrical apparatus is here to aid me in reaching to my patients a service such as no other physician has yet been able to give.

You Do Not Pay For Failures

BUT FOR CURES

My acceptance of a case is equivalent to a cure. I never accept incurable cases. I have cured many cases of men's diseases. I have cured many cases of men's diseases. I have cured many cases of men's diseases.

First Cure You

Then You Pay Me

Your case is urgent—I am willing to wait until you are cured for the few dollars I charge for my services. I am willing to do this if my cures were slow or doubtful.

Let This Advertisement Be Your Guide

It has been my message to thousands. It has been their first step toward health—it is my message to you.

The Only Diseases I Treat—

Not only varicocele, stricture, rupture, piles, hydrocele, organic weakness, contagious blood diseases, acute and chronic urethral and prostatic inflammation.

GLAD WELCOMES FOR MERCHANTS.

SAN DIEGANS ARE ARRANGING TO RECEIVE ANGELENO.

Chamber of Commerce of Southern California intends to give visitors a Rousing Good Time—Timber Cutters of New River and Pelican Lake in Trouble With Uncle Sam.

(BY DIRECT WIRE TO THE TIMES.)

SAN DIEGO, Oct. 4.—(Exclusive Dispatch.) Elaborate plans are being made to show the members of the Los Angeles Chamber of Commerce a rousing good time when they arrive in this city Saturday. A committee of the Chamber of Commerce of San Diego will meet the excursion train at Oceanside.

A band will be in waiting at the depot in this city, as well as a big delegation of citizens and lunch will be served the visitors on the Santa Fe wharf as soon as they can reach the water front after leaving the train. Later seven of the largest launches on the bay will be placed at the disposal of the visitors, and trips to the entrance of the harbor and other points of interest will be made.

In the afternoon, after the launch returns to the city, members of the Entertainment Committee of the local Chamber of Commerce will take charge of the visitors and conduct them about the city, the trips including many local points of interest.

AFTER TIMBER CUTTERS.

Some years ago several parties made a practice of cutting the mesquite timber that grew along New River and in the flats of Pelican Lake, and selling it at Imperial. In this way a quarrel was started with the city of San Diego, who have been working to clear the river of this timber. The city has been working to clear the river of this timber. The city has been working to clear the river of this timber.

LA JOLLA VS. DEL MAR.

A company with large property holdings at Del Mar is making a strong bid for the biological station which it is proposed to erect at La Jolla. The station is willing to accept La Jolla Park as a site provided the land is deeded to the station and the city agrees to place in the outfall sewer.

While the Park Commission is hesitating about the matter, Del Mar is coming forward with a plan which includes forty acres of land, free electricity, fresh water and septic tanks. The Del Mar company also agrees to build and maintain a suitable aquarium and furnish a \$10,000 gasoline launch. An electric line between San Diego and Del Mar, as well as extra train service on the Santa Fe, are also promised.

SAN DIEGO BRIEFS.

Edward M. Koch, former agent for the Union Ice Company here, has been arrested for the fourth time on a charge of embezzlement alleged to have been committed last May. Koch admitted the misappropriation of \$78 from St. Joseph's Hospital, according to the statement of a San Francisco lawyer who arrested him at El Paso, whether he had fled.

Completed registration total for the county is 10,882. This is considerably lower than at first estimated, it being thought that over 11,000 registrations would be received. A considerable growth in the city itself is somewhat offset by a decrease in the remote voting districts.

A road has been secured for the new army which is to house the Naval Reserves and Co. B. Seventh Regiment, N.G.C. This is 100 acres, at the corner of Thirtieth and the streets, and the building, which will be one story, is to cost \$100,000.

A Broadway stock shoes thrown on L. A. market Saturday. Look for bargains tomorrow.

RIVERSIDE FAMILY REUNION.

Sons and Daughters of Mr. and Mrs. George H. Dole Gather Under the Home Roof.

RIVERSIDE, Oct. 4.—A notable reunion took place in the family of Mr. and Mrs. George H. Dole yesterday at the old home place on Arlington avenue. The family has never before been gathered under the home roof since the death of Mrs. Dole, who died in 1898. It is a family after President Roosevelt's own heart, consisting of ten boys, all husky, athletic fellows, and three girls.

George H. Dole, the father, is the brother of former President Dole of the Hawaiian Islands who has taken a lively interest in the careers of the younger generation of Doles. Before settling down to his profession, nearly every one of the elder boys made a name for himself in the world of sport. Two world's championships have been captured in the polo vault. At Stanford Charles S. Dole broke the world's record and later his younger brother, Norman E. Dole, made a new record. Several of the boys have been known in the football field, and the second oldest boy, Walter Dole, belonged to one of the first all-American football teams.

One of the children came from Honolulu for the reunion, one from Portland, one from Washington, two from New York, one from Stanford, one from Boston, a daughter from Alameda, and a son from San Francisco.

Sing.
Everybody Works But Father.
Home Sweet Home.
Jingle Bells.
Juanita.
Fill the Flowing Bowl.
Mush, Mush.
My Bonnie.
Old Oaken Bucket.
Polly Wolly Doodle.
Rig a Jig.
Rocked in the Cradle of the Deep.
Solomon.
Updies.
Under the Bamboo Tree.
The Indiana Along Broadway.
Good-night, Ladies.
Forty-nine Bottles.
Oh, Didn't He Ramble.
